Version	Date	Author	Details
1.0	30 th Nov 2019	Brian O'Keeffe	Published to Access LMS
1.1	02 nd Mar 2020	Brian O'Keeffe	Update to correct table format.
1.2	27 th Apr 2020	Brian O'Keeffe	Update to section 3.2 How to Configure .

1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to provide an overview of the CorePortal Payroll Employee Self-Service (ESS) widgets and how they are used. This includes:

- A list of Payroll ESS widgets.
- How to configure tabs and add widgets.
- All menu options and other configurable elements required to support the tabs and widgets.

 **Note:** This document only covers payroll ESS widgets.

1.2. What is ESS for Payroll?

Employee Self-Service (ESS) widgets allow employees to view and interact with their employee records on CorePortal. For Payroll, there are widgets specifically designed to allow employees to interact with their payroll information, e.g. payslips, bank accounts etc.

These widgets are shared with employees on the *Employee Dashboard* on CorePortal.

1.3. List of Payroll ESS Widgets

The following table provides a list of the CorePortal widgets that are available specifically for Payroll.

Widget	Description
<i>My Payslip</i>	Allows employees to view their payslips.
<i>My Bank Accounts</i>	Allows employees to view and update their bank account details.
<i>Tax Details</i>	Allows employees to view their current tax details.

<i>P60 Documents</i>	Allows employees to view their P60 Documents.
<i>PRD60 Certs</i>	Allows employees to view their PRD60 Certs.
<i>Important Dates</i>	Allows employees to view their next pay date and next booked time off date.

2. Employee Dashboard Configuration

2.1. How to Configure the Employee Dashboard Tabs

To update the *Dashboard* tab configuration:

1. Quick Jump to *Dashboard Configuration*.
2. Select Dashboard = "Employee Dashboard".

The screen lists the current Employee Dashboard tabs and available tab widgets.

Select Dashboard *

Employee Dashboard

Dashboard Tabs

Search Tabs

Position	Tab Title	Widget Count	
1	Time	8	
2	Payment	9	
3	Pension	7	
4	Flex Bens	1	
5	Profile	10

The default options for the *Payment* tab configuration is listed in the table below:

Item	Value	Description
Title	Pay	This is the actual text that will appear on the Dashboard tab.
Name	Pay	This will not appear on the Dashboard tab.
Phrase Code	My_pay	The phrase code for the 'Title' in the Language Pack.
Icon	Money-2	This is the icon that will appear on the Dashboard tab.
Position	2	The order in which the tab will display on the Dashboard.

Note:

These configuration options may be updated per organisation's requirements. The values identified above are for reference purposes.

2.1.2. Delete a tab

To delete a tab on the *Employee Dashboard*:

1. Select a tab from the available list.
2. Click the  button and select **Delete Tab**.

3. Click on **Yes**.

2.1.3. Add a Tab

To add a tab on the *Employee Dashboard*:

1. Click on the **Add Page Tab** button.

The *Edit Tab* screen opens.

2. Give the tab a title, name etc. For a full description of each item see [section 2.1.1](#)

3.1.2. Viewing a Payslip

To view one of the most recent 4 payslips on the *My Payslips* widget:

1. Select the date.

The screenshot shows the 'My Payslips' widget. At the top right is a blue button labeled 'VIEW ALL'. Below the title, there is a list of dates: '18th June 2019', '11th June 2019', '4th June 2019', and '28th May 2019'. A red arrow points to '18th June 2019'. To the right of the dates, there is a table with two columns: the first column contains the dates, and the second column contains the pay details. The first row shows 'Total Earnings' with five asterisks (*****). The second row shows 'Total Deductions' with five asterisks (*****). The third row shows 'Net Pay' with five asterisks (*****). To the right of the table, there is a blue button labeled 'DISPLAY PAY SUMMARY'.

The pay amount is hidden.

2. Click on **Display Pay Summary**.

This screenshot is identical to the previous one, but with a red arrow pointing to the 'DISPLAY PAY SUMMARY' button.

3. Enter your CorePortal password.

The screenshot shows a 'Confirm Password' dialog box. It has a title 'Confirm Password'. Below the title, there is a label 'Password*' followed by a series of dots representing a password field. To the right of the password field is an eye icon. Below the password field, there is a label 'Please confirm your password'. At the bottom of the dialog box, there are two buttons: 'CANCEL' and 'OK'. A red arrow points to the 'OK' button.

4. Click OK.
5. Click on **Full Payslip**.

3.2. How to Configure

3.2.1. Access to the *My Payslip* Widget

To access the *My Payslip* Widget, the user requires the following menu option:

System	Menu Option	Description
CorePortal	Widget - Pay - Payslips/Salary History	This switches on access to the <i>My Payslip</i> Widget on the <i>Employee Dashboard</i> .

3.2.2. List of CorePortal Payslip Parameters

The following table provides a list of CorePortal parameters used to configure the payslip.

Parameter Code	Description
cp_my_payslip_hide_pay	This parameter determines if the pay values are hidden on the <i>My Payslip Widget</i> . Switch to N if you don't want to hide pay values.
cp_pyslip_strtdate	This parameter determines from what date onwards to show payslips. Type in date, e.g. 01-JAN-1980.
cp_displ_cstcntr	This parameter determines whether to display the cost centre on portal payslips. Switch to Y to display the cost centre.
pay_rate_no_link	This parameter determines whether to display the Rate Current button on the Portal Payslip. Set to N to display the Rate Current button.
pay_show_hourly	This parameter determines whether to display the hourly rate on portal payslips. Switch to Y to display the hourly rate.
payslip_newqual	This parameter determines whether to display the employee's qualifications (from the HR Personal Profile) after their name on the portal payslip. Set to Y to display qualifications.

Parameter Code	Description
pay_emp_pen	This parameter determines whether to display employer pension on the portal payslip. Set to Y to display the employer's pension.
pay_emp_prsi	This parameter determines whether to display employer PRSI on the portal payslip. Set to Y to display employer PRSI.
show_bik_cumulative	This parameter determines whether to display B.I.K. in the cumulative year to date section on the portal payslip. Set to Y to display employee's BIK in the cumulative year to date section.
show_bik_cumulative_lbl	This parameter allows you to set a label for Benefit in Kind (BIK) in the Cumulatives Year-to-date section.
hide_er_ni_cumulatives	This parameter determines whether to display Employer NI in the cumulative year to date section on the portal payslip. Set to N to display Employer NI.
hide_uk_paye_code	This parameter determines whether to display the employee's tax code in the details section of the portal payslip. Set to N to display employee's tax code.

To update any of the parameters, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for parameter code.
3. Update this as per the guidance in the description column above, e.g.:
 - a. Set to "Y", to turn on parameter.
 - b. Set to "N" to turn off parameter.
4. Save changes.

4. *My Bank Account* Widget

4.1. How to Use

4.1.1. What Does the *My Bank Account* Widget do?

The *My Bank Account* widget allows employees to view and edit their bank account number.

Note:

For those using the CoreExpense Module, two bank accounts are displayed:

- Pay - your bank account for payroll.

4.1.2. How to Edit Your Bank Details

To edit your bank details:

1. Click on the **View** button beside the bank details you want to edit.

2. Select your new sort code from the drop-down menu in the *Update Bank Details* screen.

3. Enter your new bank account number.
4. Confirm your new bank account number.

5. Tick "I accept that saving will update my bank details".
6. Click on **Save**.

4.2. How to Configure

4.2.1. Access to the *My Bank Account* Widget

To access the *My Bank Account* Widget, the user requires the following menu option:

System	Menu Option	Description
CorePortal	CorePortal - Employee Bank Details	This switches on access to the <i>My Bank Account</i> widget on the <i>Employee Dashboard</i> .

To view bank account details in the *My Bank Account* Widget, the user requires the following menu options:

System	Menu Option	Description
CorePortal	CorePortal - Employee Bank Details Pay View	This switches on access to view the payroll bank account on the <i>My Bank Account</i> widget.
CorePortal	CorePortal - Employee Bank Details Expense View	This switches on access to view the expense bank account on the <i>My Bank Account</i> widget.

To update bank account details in the *My Bank Account* Widget, the user requires the following menu options:

System	Menu Option	Description
CorePortal	CorePortal - Employee Bank Details Pay Update	This switches on access to update the payroll bank account on the <i>My Bank Account</i> Widget.
CorePortal	CorePortal - Employee Bank Details Expense Update	This switches on access to update the expense bank account on the <i>My Bank Account</i> Widget.

4.2.2. How to Hide Bank Account Number

Switch off the following parameter to hide the employee's bank account number:

Parameter Code	Description
cp_iso_bankshow_override	This parameter determines whether to display the full bank account number or hide the account number.

To update the parameter, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for cp_iso_bankshow_override
3. Update this to one of the following values.
 - a. Set to "Y", to display the full bank account number.
 - b. Set to "N" to use existing options to hide the bank account number.
4. Save changes.

Note: This is set to "N" by default i.e. the parameter is off.

All account numbers, except the last 2 digits, are hidden.

Switch off the following parameter, along with the cp_iso_bankshow_override parameter, to hide all the entire bank account number:

Parameter Code	Description
cp_iso_bank_show_twochar	This parameter determines whether to display the last 2 digits of the bank account number or hide the entire account number.

To update the parameter, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for `cp_iso_bank_show_twochar`
3. Update this to one of the following values.
 - a. Set to "Y", to display the last 2 bank account numbers.
 - b. Set to "N" to hide all the bank account numbers.
4. Save changes.

Note: This is set to "Y" by default i.e. the parameter is on.

Switching to "N" hides all of the bank account numbers.

4.2.3. How to Show Bank Account Number

Switch on the following parameter to show the employee's bank account numbers:

Parameter Code	Description
<code>cp_iso_bankshow_override</code>	This parameter determines whether to display the full bank account number or hide the bank account number

To update the parameter, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for `cp_iso_bankshow_override`
3. Update this to one of the following values.

Set to "Y", to display the full bank account number.
4. Save changes

Note: This is set to "N" by default i.e. the parameter is not on.

Note: If this parameter is on, this overrides the other parameters and ensures that the bank account details are fully displayed to the employees.

4.2.4. Show Bank Accounts in the *My Bank Account* Widget.

Switch on these parameters to display bank accounts in the *My Bank Account* widget:

Parameter Code	Description
cp_bank_acc_display_pay	Switch on this parameter to display employee's pay bank account details in the <i>My Bank Accounts</i> widget.
cp_bank_acc_display_exp	Switch on this parameter to display employee's expense bank account details in the <i>My Bank Accounts</i> widget.

To update these parameters, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for the *Parameter Code*.
3. Update these to one of the following values.
 - a. Set to "Y", to display the bank account details.
 - b. Set to "N" to hide the bank account details.
4. Save changes

Note: These are set to "Y" by default i.e. the parameters are on.

4.2.5. Show Building Society Details When Updating Bank Accounts.

Switch on these parameters to allow an employee to enter a Building Society reference when updating their bank account:

Parameter Code	Description
cp_simple_bank_update	Switch on this parameter to allow an employee to enter a Building Society reference when updating their pay bank account.
cp_ext_bank_buildsoc_ind	Switch on this parameter to allow an employee to enter a Building Society reference when updating their expense bank account.

To update these parameters, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for the *Parameter Code*.
3. Update this to one of the following values.

- a. Set to "Y", to show the option to enter a Building Society reference.
 - b. Set to "N", to hide the option to enter a Building Society reference.
4. Save changes.

 **Note:** These are set to "Y" by default i.e. the parameters are on.

4.2.6. Password Authentication for Bank Account Changes.

Switch on the following parameter to turn off password authentication for bank account changes:

Parameter Code	Description
cp_simple_bank_update	This parameter turns off password authentication for bank account changes.

To update this parameter, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for the cp_simple_bank_update
3. Update this to one of the following values.
 - a. Set to "Y", to turn off password authentication for bank account changes.
 - b. Set to "N", to leave on password authentication for bank account changes.
4. Save changes

 **Note:** These are set to "N" by default i.e. the parameter is off.

4.2.7. List of Other CorePortal Bank Account Parameters

The following table provides a list of CorePortal parameters used to configure the CorePortal Bank Account:

Parameter Code	Description
ex_change_pay_method_msg	This parameter determines what message appears when bank account details are changed, and the payment method is set to EFT.
cp_ext_bank_acct_min_len	This parameter determines the minimum number of digits that are required on the account number field when entering the bank account number. The value should be set to 8.
cp_ext_bank_acct_max_len	This parameter determines the maximum number of digits that are required on the account number field when entering the bank account number. The value should be set to 8.
cp_ext_bank_bsref_maxlen	This parameter determines the maximum number of digits that are required on the account number field when entering Building Society reference numbers. The value should be set to 20.
ex_bank_bldg_ref	This parameter determines whether to allow a Building Society reference to be entered when entering expense bank details.
cp_iso_bank_mask_length	This parameter to determine the maximum length for the format mask on bank account / IBAN fields. Default length is 14, and the default mask character is *.
cp_iso_bank_mask_char	This parameter determines the special character for the format mask on bank account / IBAN fields. Default length is 14, and the default mask character is *.

4.2.8. List of CorePortal Bank Account Email Notifications

The following table provides a list of CorePortal parameters used to configure the CorePortal Bank Account change email notification:

Parameter Code	Description
cp_ext_bank_mail_sub	This parameter determines the email subject header an employee receives when their bank account details are updated, e.g. Bank details have been updated.
cp_ext_bank_mail_bod	This parameter determines the email body an employee receives when their bank account details are updated, e.g. Your bank details have been updated via CorePortal.
cp_email_pay_prefix	This parameter determines the prefix of the email the employee receives when their bank account number is updated. This should be populated with the URL your employees use to log into their portal accounts.

Points to note regarding bank detail change email notifications:

- This email is sent from donotreply@corehr.com.
- This notification email sends independently of any EMS configuration.
- There is no parameter that switches off this email notification.
- The text "You can view further details @ the following Web address URL" is hardcoded and cannot be edited.

Example of the email notification:

5. *Tax Details* Widget

5.1. How to Use

5.1.1. What Does the *Tax Details* Widget do?

For UK employees, the *Tax Details* widget displays the employee's current NI number, NI letter, tax code, and tax basis.

Tax Detail	
NI No.	KP683779C
NI Letter	A
Tax Code	BR
Tax Basis	Cumulative

For Irish employees, the *Tax Details* widget displays the employee's current PPS number, PRSI class, tax credit, SRCOP, marginal tax status, and USC status.

Tax Detail	
PPS No.	0333840F
PRSI Class	A1
Tax Credit	3300
Cut Off	35300
Tax Basis	Cumulative
Marginal Tax	N/A
USC Status	Subject to USC

5.2. How to Configure

5.2.1. Access to the *Tax Details* Widget

To access the *Tax Details* Widget, the user requires the following menu option:

System	Menu Option	Description
CorePortal	CorePortal - Tax Widget Access	This switches on access to the <i>Tax Details</i> Widget on the <i>Employee Dashboard</i> .

5.2.2. *Tax Details* Widget Configuration

Switch on the following parameter to show the NI/PRSI number:

Parameter Code	Description
cp_tax_detail_prsi_ni	Switch on this parameter to display the employee's NI/PRSI number in the <i>Tax Details</i> widget.

To update the parameter, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for the "cp_tax_detail_prsi_ni".
3. Update this to one of the following values.
 - a. Set to "Y", to display the NI/PRSI number.
 - b. Set to "N" to hide the NI/PRSI number.
4. Save changes.

Note: This is set to "Y" by default i.e. the parameter is on.

3. Click on **View**.

7.2. How to Configure

7.2.1. Access to the *PRD60 Certs* Widget

To access the *PRD60 Certs* Widget, the user requires the following menu option:

System	Menu Option	Description
CorePortal	Widget - Pay - PRD60 List	This switches on access to the <i>PRD60 Certs</i> Widget on the <i>Employee Dashboard</i> .

8. Important Dates Widget

8.1. How to Use

8.1.1. What Does the *Important Dates* Widget do?

The *Important Dates* widget allows employees to view their next pay date and next booked time off.

8.2. How to Configure

8.2.1. Access to the *Important Dates* Widget

To access the *Important Dates* Widget, the user requires the following menu option:

System	Menu Option	Description
CorePortal	Widget - Time - My Important Dates	This switches on access to the <i>Important Dates</i> Widget on the <i>Employee Dashboard</i> .

8.2.2. *Important Dates* Widget Configuration

Switch on these parameters to display the next pay date and next booked time off:

Parameter Code	Description
p_my_imp_dates_paydate	Switch on this parameter to display the employee's next pay date in the <i>Important Dates</i> widget.
cp_my_imp_dates_timeoff	Switch on this parameter to display the employee's next booked time off in the <i>Important Dates</i> widget.

To update these parameters, follow these steps.

1. Quick jump to *Site Manager* and open *Admin Settings*.
2. Search for the *Parameter Code*.
3. Update these to one of the following values.
 - a. Set to "Y", to display the date.
 - b. Set to "N" to hide the date
4. Save changes

Note: These parameters are set to "Y" by default i.e. the parameters are on.

8.2.3. Important Dates Parameter

The following parameter is used to configure the *Important Dates* Widget:

Parameter Code	Description
cp_myimpdates_na	<i>Important Dates</i> Widget - Character to display if date not available. For example, if an employee had no booked time off, this can be set so that a dash would display. See screenshot below.
