1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how the Payscale Restriction Matrix may be used on CoreHR to provide an additional element of control to the step of awarding a Pay Scale to an employee. This includes:

- An overview of the Payscale Restriction Matrix feature.
- How to configure matrix rules.
- How to enable or disable the restriction.

1.2. What is the 'Payscale Restriction Matrix'?

It is possible to restrict the list of Pay Scales that are available to a user to select for an employee's salary, based on certain employee or contract attributes. A matrix of rules can be configured on CoreHR to identify the Pay Scales that are applicable to specific employee attributes e.g. Country, Division, Employment Status etc.

When a hr administrator is creating the salary for an employee, the system will check to see if the record meets any of the rules defined on the matrix and will only display the Pay Scales that match those rules.

For example, if the Pay Scales "Grade 1" and "Grade 2" should only apply to UK based employees, then the hr administrator will only see those Pay Scales when the employee's address is based in Country of *UK*.

Care needs to be taken when defining the matrix of rules to ensure that all employee scenarios are catered for because if an employee does not match any rule, no Pay Scale will be available.

1.3. Where is the Restriction Applied?

 **Note** This is a global setting on CoreHR and once enabled will impact all users of the system that are creating and amending salary records.

Once the restriction is enabled, this applies to all screens in CoreHR where salary records are created and amended for an employee including:

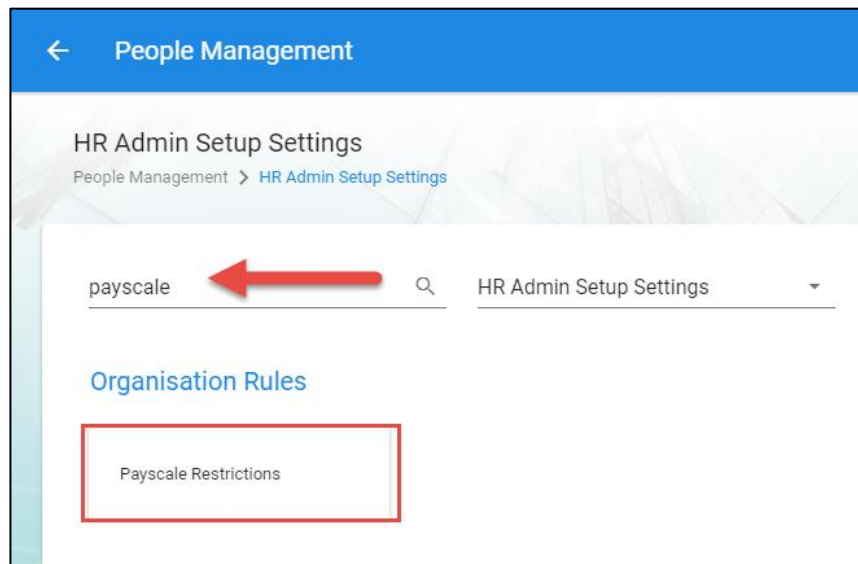

- New Hire, Replace Contract, Additional Contract & Rehire wizards.
- Amend Salary screen.

2. Configuring the Payscale Restriction Matrix

2.1. Where to Access *Payscale Restriction Matrix*

To access the *Payscale Restriction Matrix* feature:

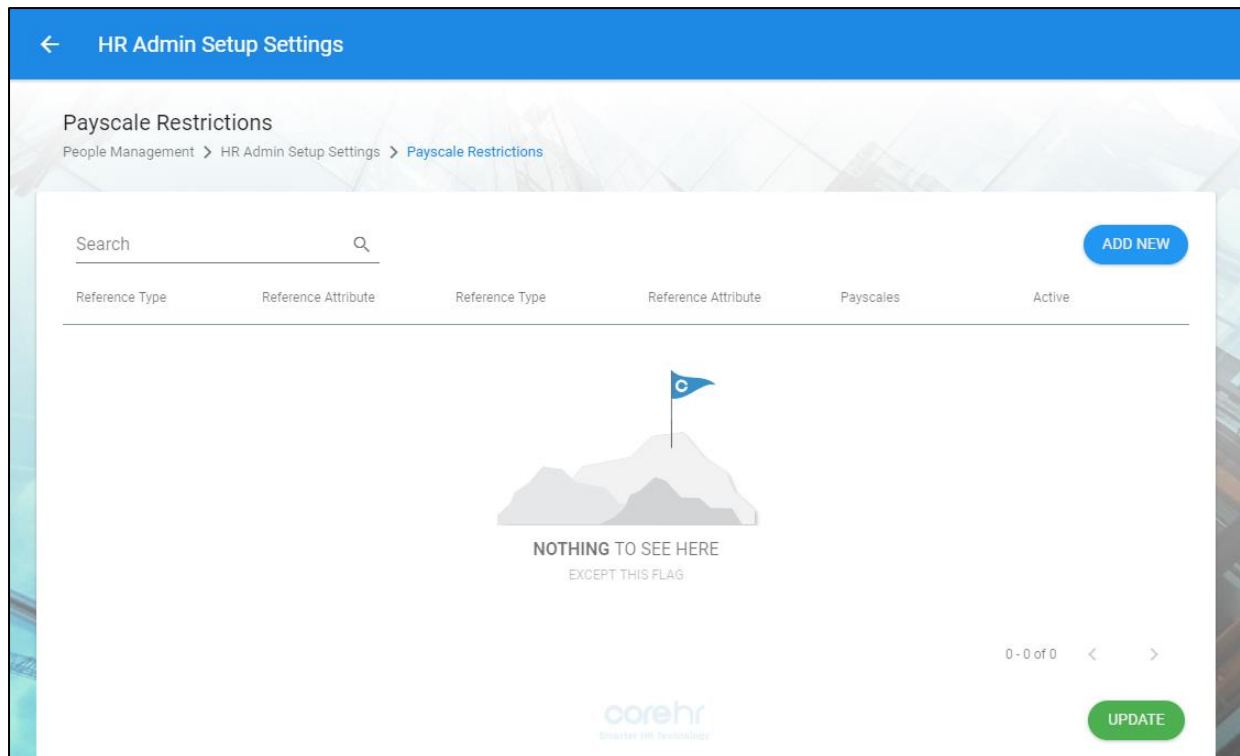

1. Quick jump the *Data Centre* widget and **Open** *HR Admin Setup Settings*.
2. Search for *Payscale Restrictions* and click on the corresponding option.

3. The *Payscale Restriction Matrix* window opens.

If any rules are already defined, these will be displayed on the screen.

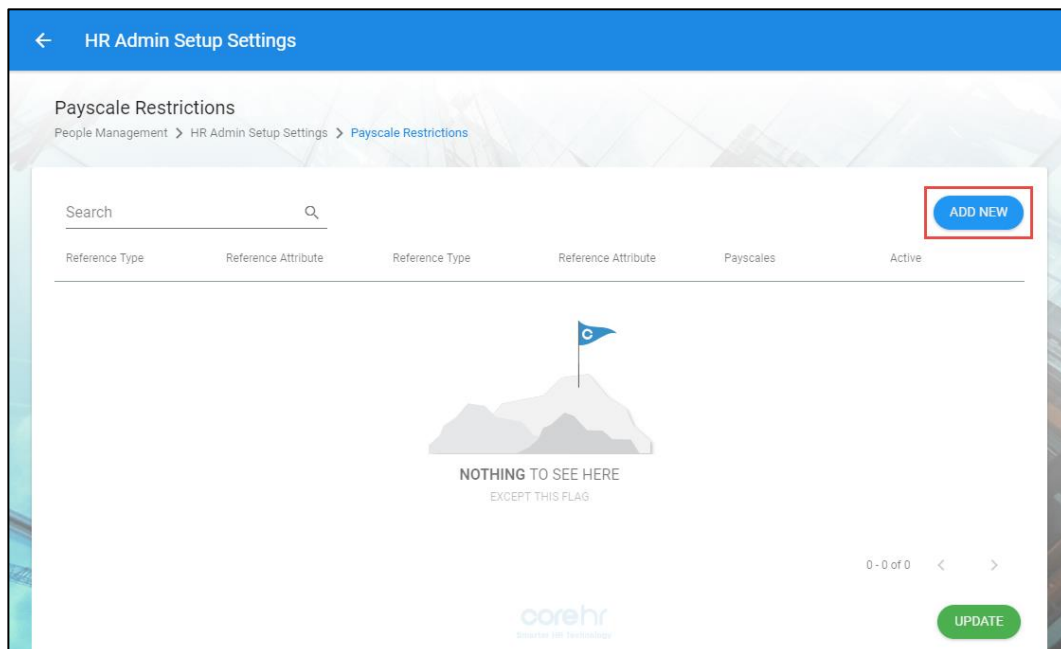

XD People Management: Payscale Restriction Matrix

2.2. Add a Rule

To add a rule:

1. On the *Payscale Restriction Matrix* screen, click the **Add New** button.

The *Payscale Restriction Setup* screen opens.

2. To create the rule:

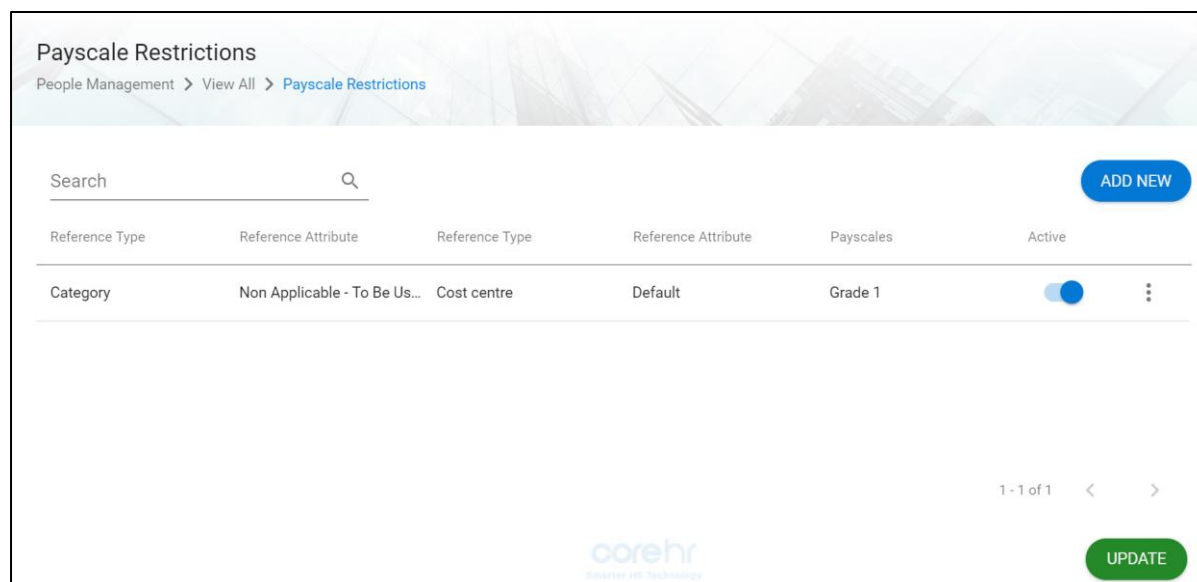

- a. Select a *Reference Type*.
1 must be provided at a minimum.
- b. Select a *Reference Item*.
 - This list will display items based on the *Reference Type* selected.
 - E.g. if Reference Type = *Country* then this will display a list of countries.
- c. Select a second *Reference Type & Reference Attribute* if required.
- d. Select the Payscales for the rule:
 - Select the required Payscale from the *Available* list.
 - Drag and drop or click the > button to add this to the *Assigned* list.
 - Repeat for all Pay Scales required.

3. Click **Save** to create the rule.

XD People Management: Payscale Restriction Matrix

The rule will automatically appear on the *Payscale Restriction Matrix* screen.

Note This is created as *Active* by default.

 [UPDATE](#)

Important consideration

All employee scenarios need to be catered for to ensure that there is always a Pay Scale available to select for the employee's salary on screen.

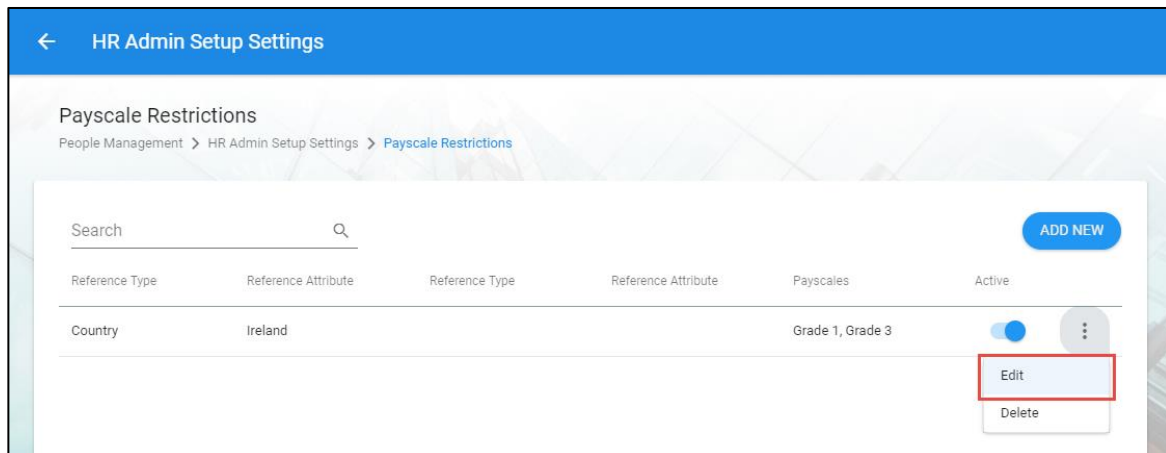

For the example above, there is a single rule for, if the employment status = 'Permanent', then Pay Scales "GR1" and "GR2" will be available. However, because no other rules exist, if the employee's Employment Status is anything other than 'Permanent', no Pay Scales will be available to select on their salary. If a rule doesn't exist to match the employee / contract record, no Pay Scales are available.

Therefore, great care must be taken when setting up the matrix to ensure that all scenarios are catered for.

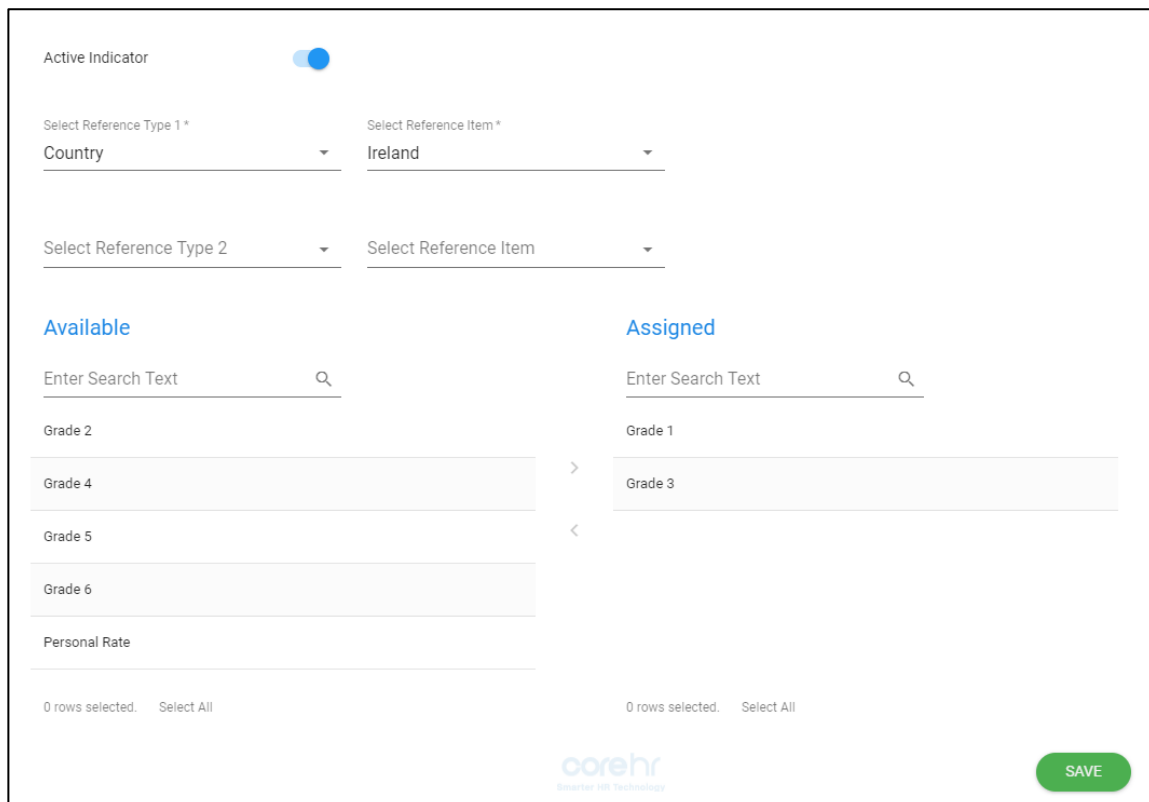

2.3. Edit a Rule

To edit an existing rule:

1. On the *Payscale Restriction Matrix* screen, click the  button for the required rule.
2. Select **Edit**.

The *Payscale Restriction Setup* screen opens.

3. Update the rule as required e.g.

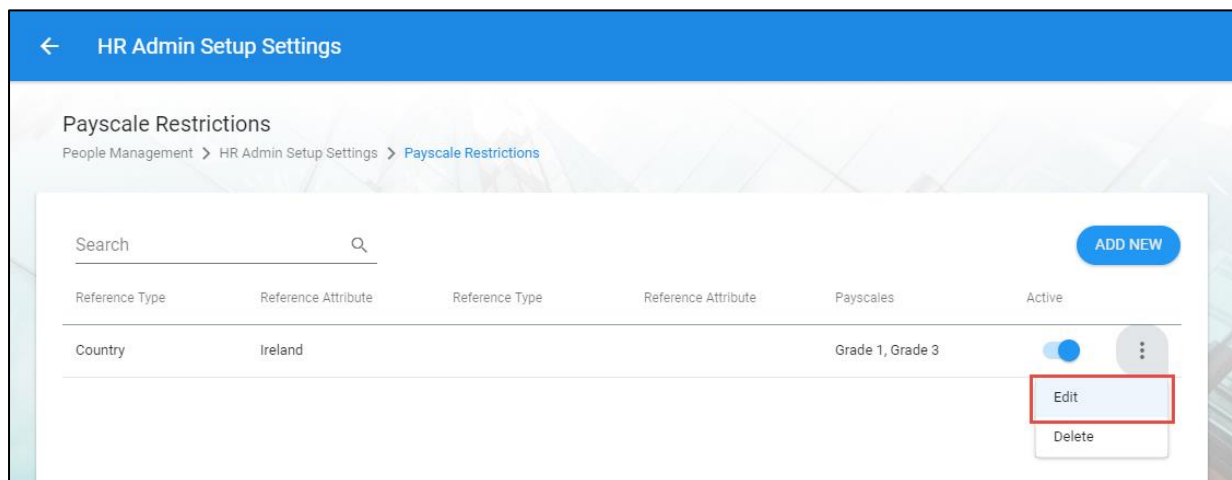

XD People Management: Payscale Restriction Matrix

- a. Change references.
 - b. Add additional reference.
 - c. Add / remove pay scales.
4. Click the **Save** button to save changes.

2.4. Make a Rule Active / Inactive

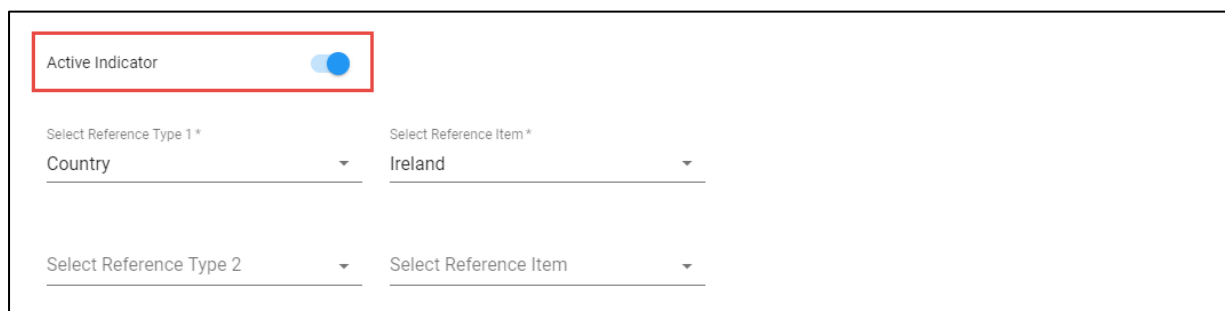

2.4.1. Option 1

1. On the *Payscale Restriction Matrix* screen, click the  button for the required rule.
2. Select **Edit**.

The *Payscale Restriction Setup* screen opens.

3. Update the **Active** checkbox at the top of the screen.

Active Indicator ☒	
Select Reference Type 1 *	Select Reference Item *
Country	Ireland
Select Reference Type 2	Select Reference Item

- **Active** = Checked

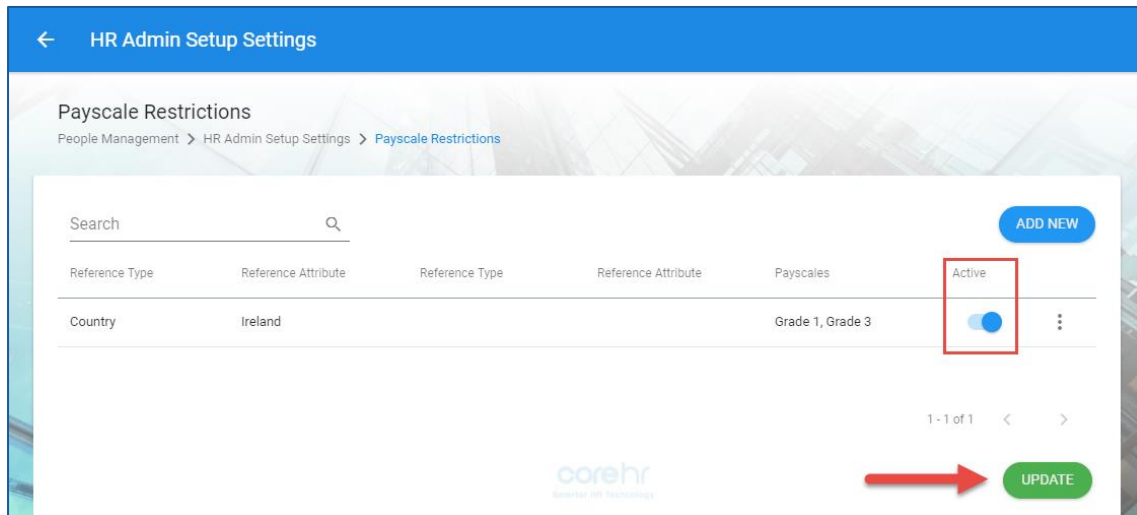

XD People Management: Payscale Restriction Matrix

- **Inactive** = Not Checked

4. Click the **Save** button to apply changes.

2.4.2. Option 2

1. Click the **Active** checkbox on the *Payscale Restriction Matrix* screen:

2. Click the **Update** button to save changes.

2.5. Delete a Rule

To delete a rule:

1. On the *Payscale Restriction Matrix* screen, click the  button for the required rule
2. Select **Delete**.

XD People Management: Payscale Restriction Matrix

The screenshot shows the 'HR Admin Setup Settings' page with a sub-section for 'Payscale Restrictions'. The breadcrumb trail is 'People Management > HR Admin Setup Settings > Payscale Restrictions'. Below the header is a search bar and an 'ADD NEW' button. A table lists the restrictions with columns: Reference Type, Reference Attribute, Reference Type, Reference Attribute, Pyscales, and Active. The first row shows 'Country' as the Reference Type, 'Ireland' as the Reference Attribute, and 'Grade 1, Grade 3' as the Pyscales. The 'Active' column has a toggle switch and a three-dot menu. A red arrow points to the 'Delete' option in this menu. At the bottom right is an 'UPDATE' button. The footer shows the URL 'https://qamy.corehr.com/pls/coreportal_lm27/i#' and the 'corehr' logo.

Reference Type	Reference Attribute	Reference Type	Reference Attribute	Pyscales	Active
Country	Ireland			Grade 1, Grade 3	☒ Edit Delete

- Deleting the rule will require confirmation, click the **Yes** button.
- A confirmation is displayed after the deletion of the rule.

The screenshot shows the 'View All' page for 'Payscale Restrictions'. The breadcrumb trail is 'People Management > View All > Payscale Restrictions'. A green success message box at the top right says 'Payscale Removed Successfully', with a red arrow pointing to it from the table area. Below the header is a search bar and an 'ADD NEW' button. The table columns are the same as in the previous screenshot, but it is empty. At the bottom, there is a graphic of a mountain with a flag and the text 'NOTHING TO SEE HERE'.

Reference Type	Reference Attribute	Reference Type	Reference Attribute	Pyscales	Active
----------------	---------------------	----------------	---------------------	----------	--------

3. Additional Configuration Required

3.1. Parameter to Enable the Restriction

The restriction is parameter controlled. This means that once the matrix of rules has been defined, the restriction must be switched on, to ensure the Pay Scale lists are restricted for the end users.

To enable the restriction:

1. Quick jump to the *Site Manager widget* and **Open Admin Settings**.
2. Search for the parameter = "**cp_rest_pay_scale_matrix**"
3. Update the parameter;
 - a. **Y** = Restriction is enabled
 - b. **N** = Restriction is not enabled
4. Click **Save** to save changes

3.2. Menu Options

The following menu option is required to see the *Payscale Restriction Matrix* option on the *Settings* widget.

Once that option is enabled for a user's Menu Profile, they will have access to all of the functionality available on the screen.

System	Menu Option
People Management	Payscale Restriction Matrix
