1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to explain the Balance Screens which have moved from Back Office to Portal. The *Balances Screen* in Portal removes the need for Administrators to complete the daily balances tasks in the back office.

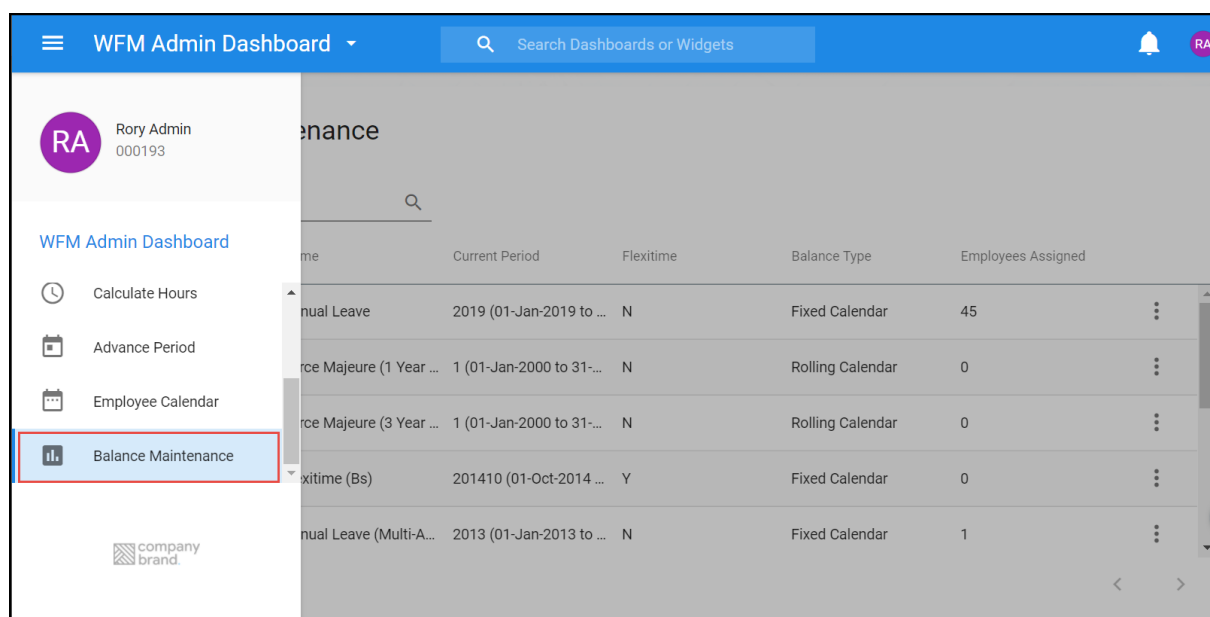

This guide covers the following:

- Balance Recalculation
- Activate Balances
- Balance Period End

1.2. Accessing the Balances Screens

To access the Balances Screens, you should complete the following:

1. Quick Jump to *WFM Admin Dashboard*.
2. Select **Balance Maintenance**.
3. The landing page displays. This shows all the balances in the system.

1.3. Balance Maintenance Screen

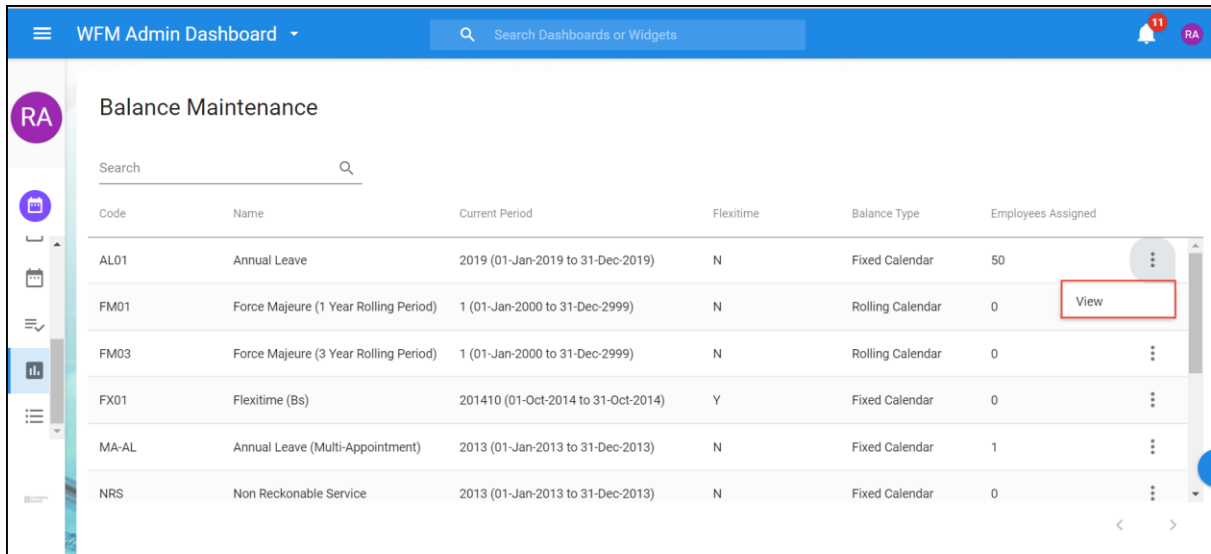

On the *Balance Maintenance Screen*, you can view the number of employees assigned to each balance.

The screen also shows the following:

- **Code:** The specific code for the balance.
- **Name:** The description of the balance
- **Current Period:** The period covered by the balance.
- **Flexitime Indicator:** This indicates whether or not the balance is flexitime.
- **Balance Type:** This explains whether the balance is based on a fixed or a rolling calendar.

To view *Balance Recalculation*, *Balance Activation* and *Balance Period End*

1. Click on the  next to the specific balance.
2. Select **View**

Code	Name	Current Period	Flexitime	Balance Type	Employees Assigned
AL01	Annual Leave	2019 (01-Jan-2019 to 31-Dec-2019)	N	Fixed Calendar	50
FM01	Force Majeure (1 Year Rolling Period)	1 (01-Jan-2000 to 31-Dec-2999)	N	Rolling Calendar	0
FM03	Force Majeure (3 Year Rolling Period)	1 (01-Jan-2000 to 31-Dec-2999)	N	Rolling Calendar	0
FX01	Flexitime (Bs)	201410 (01-Oct-2014 to 31-Oct-2014)	Y	Fixed Calendar	0
MA-AL	Annual Leave (Multi-Appointment)	2013 (01-Jan-2013 to 31-Dec-2013)	N	Fixed Calendar	1
NRS	Non Reckonable Service	2013 (01-Jan-2013 to 31-Dec-2013)	N	Fixed Calendar	0

Activate Balance, Balance Recalculation and Balance Period End can be run in the following modes:

- HRA Access
- System User Access
- Team Area Access

2. Balance Recalculation

2.1. Overview

As part of *Balance Maintenance*, Portal now allows you to recalculate balance for one employee or a group of employees.

Access is based on the following options in the table below:

Access	Details
Structure Code Access	User can select an individual employee. If they leave it blank, it runs for all the employees which the user has access to.
System Users	Users run by Work Group, Dept or Individual employee based on their access.
Team Area	Users can run for a selected team area or for an individual employee based on Team Area Access.

2.2. How to Recalculate a Balance

To recalculate a balance:

1. Select the **Period** you wish to recalculate from the dropdown list. The list should be dependent on the calendar periods configured for the balance. There is an indicator on the screen which will show the percentage
2. If the access is by Team Area, select the **Team Area dropdown**. You can restrict who you wish to recalculate by choosing by Work Group, Dept etc.

3. If the access is by System User and you wish to recalculate an individual employee, select from the **Person** drop down menu.

ERRORS

RECALCULATE

- The button status at the end of the screen changes to **Recalculating**.

- If you try to recalculate once again, the system flags you with a message saying the process is already in progress.

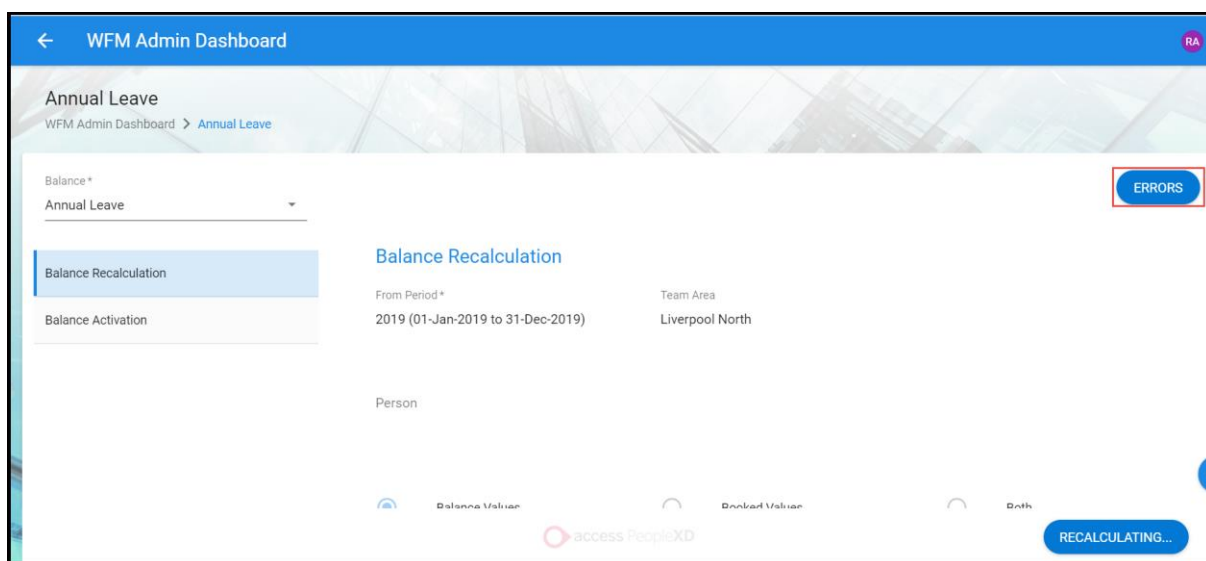

- Once recalculating the screen should mask until the recalculation has completed.

2.3. Errors Screen

If there are any errors which need to be actioned, you can check these on the *Errors Screen*.

To access the screen:

1. Click the **Errors** button on the top right corner of the screen.
2. Any errors will be listed on the screen.

2.4. Menu Options

The following tables show the menu options needed to access the *Balance Recalculation Screen*.

Note:

This is a site setting and applicable to all admin screens.

Screen	Menu Option
Balance Maintenance Screen	Balance Maintenance (57190473)
Balance Recalculation Screen	Balance Recalculation (961177288)

3. Balance Activation

In this section, we see the *Balance Activation Screen* has been moved from Back Office and is now available on Portal.

3.1. Access

Balances are activated based on what is selected in the Admin Dashboard Access. The access is detailed in the following table:

Access	Details
Structure Code Access	User can select an individual employee. If left blank the user has access based on their HRA Access.
System Users	Users can run by Work Group, Department or Individual Employees based on their access to Work Group/ Dept combinations in System Users.
Team Area	Users will have the ability to run for a selected Team Area or for an individual employee based on the user Team Area Access

3.2. How to Activate a Balance

**Note:**

Balances can be assigned using the existing screens in People Management. If you wish to group assign, you can do so in Balance Activation.

To Activate a Balance, complete the following steps:

1. Select the Period which you wish to activate.
2. Select the **Balance Type**. You can choose between Days, Hours and Occurrences.

The screenshot shows the 'WFM Admin Dashboard' with a blue header. The main content area is titled 'Annual Leave' and includes a breadcrumb 'WFM Admin Dashboard > Annual Leave'. On the left, there's a sidebar with 'Balance Recalculation' and 'Balance Activation' (highlighted). The main area has a 'Balance *' dropdown set to 'Annual Leave', a 'Balance Recalculation' section, and a 'Balance Activation' section. The 'Balance Activation' section includes a 'Balance Period End' field and a 'Balance Details' section. The 'Balance Details' section has a 'From Period *' dropdown set to '2019 (01-Jan-2019 to 31-Dec-2019)', a 'Balance Type *' dropdown, and a 'Balance Segment *' dropdown. A circular progress indicator shows '0% Processed'. There are 'CLEAR' and 'SAVE' buttons at the bottom right, and an 'ACTIONS' button in the top right corner.

3. Choose a **Balance Segment**. It can be either Full, Half, Quarter or None.
4. Under **Personnel Criteria**, select the Team Area if you have access by Team Area.
5. Select an employee under Person if you have access by System User.

CLEAR SAVE

- On activation, you are given a count of the number of employees who will be activated and asked if you wish to proceed.

10. When the activation is running, the **Save** button will be updated to **Activating**. The screen is locked once activation is run, the user can leave the screen and come back.
11. If you select the Activating button you are stopped and warned by the system that this balance is currently activating for a group of people.
12. Any errors are visible on the *Errors Screen*.

Note:

Once selected the balance activation will check if the balance has already been assigned to someone in the selected criteria and alert the user.

3.3. Actions

With the **Actions** button, you can access the following screens:

- **Linked Balances:** Linked Balances can be viewed on this screen. You can see any other balances that are related to those which you have activated.
- **Errors:** Errors relating to a balance activation can be viewed by selecting the Actions option and selecting View Errors. Errors display for the last run for the employees / balance activation only. Errors are cleared once the balance is activated again by the same employee.

3.4. Menu Options

The following menu options are needed to configure Balance Activation:

Screen	Menu Option
Balance Maintenance	WFM Admin > Balance Maintenance (57190473)

Get Settings Balances Recalculate	Roster > Get settings balances recalculate (599c121faae9102cb56a5ad8936bf966)

4. Balance Period End

Since balances are a key element of an employee's HR record, the balance period end must be run as and when dictated by the balance calendar. If the calendar is yearly (e.g. holidays) it must be run once a year. If it is a monthly calendar (e.g. flexitime) it must be run monthly.

Note:

The balance period end can only be run after the appropriate system weeks have been closed.

In WFM the *Balance Period End Screen* allows you to close the balance of the current period. On entry the current periods opening and closing values are displayed.

RUN PERIOD END

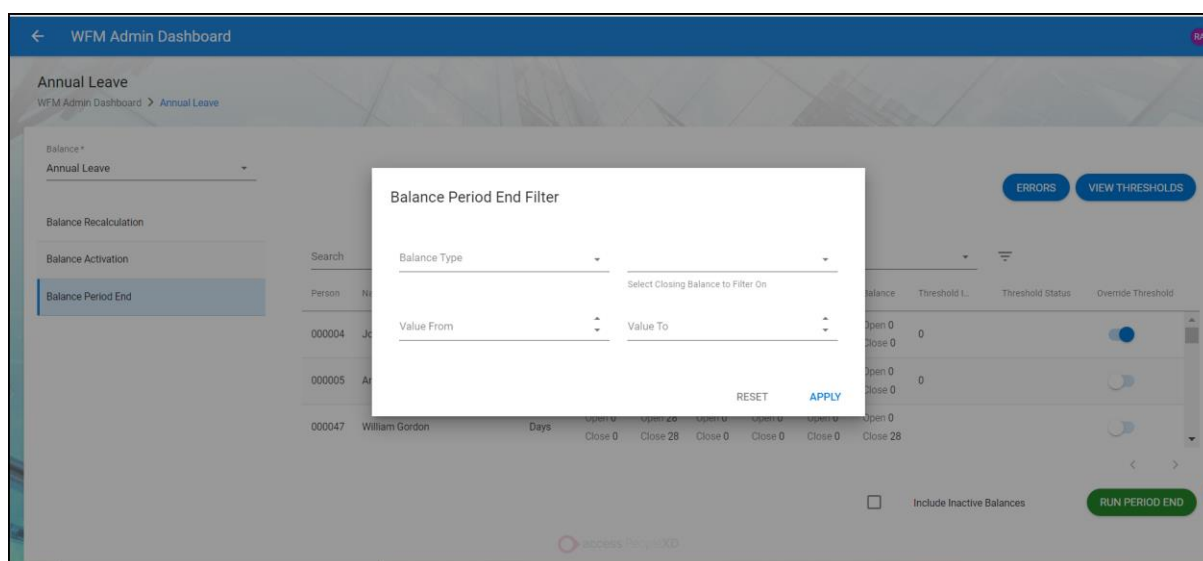

Search bar: There is a search bar on the top left of the screen which allows you to search either by personnel number or by employee name.

Period: The system will default to the current period, you can choose to view other periods, for historical periods the screen displayed that periods opening and closing values.

All, Applied or **Not Applied** can be selected from the next dropdown menu. Thresholds can be applied to period-end carryovers (the maximum amount allowed to be carried over from one period to the next is 5 days) The screen can be filtered to show where the threshold has been applied or not by selecting the associated filter.

Filter: The screen has a filter button  which allows you to filter for any relevant balances such as carried over balance or accrued entitlement.

You can filter the screen using the following fields. Once you have chosen, click OK. Click Reset to choose new filters.

- **Balance Type:**
 - Days
 - Hours
 - Occurrences

- **Select Closing Balance to filter on:**
 - Reserved Entitlement
 - Floating Entitlement
 - Accrued Entitlement
 - Carrying over
 - Taken
 - Balance

- **Value from**

- **Value to**
 - Value to

Note:

Each of the fields show the balances at the **open** and the **close** of the period as shown in the screenshot above.

The following fields are displayed on the screen, giving further information as needed in relation to the balance.

Field	Details
Person	Personnel Number.
Name	Name of the Employee.
Reserved	Part of an employee's entitlement that is reserved. When employees are booking leave they cannot book against the reserved pool.
Floating	The entitlement available to employees to book their leave against.
Accrued	Time which has been built up.
Carrying-over	Time which has been carried forward from the previous period.
Taken	Time taken.
Balance	Balance remaining.
Threshold Impact	This shows the carry-over threshold impact on the closing value. If the allowed carryover threshold is 5 days and the employees had a closing value 8, the threshold impact is then 5 days (the employee loses 3 days).
Threshold Status	Shows if the threshold status was applied to closing values.
Threshold Override	Thresholds can be overridden in certain situations using this toggle.

**Note:**

For more details on Threshold, please refer to [Section 4.2](#)

The *Include Inactive Balance* box should be ticked if you wish to include any currently inactive balance within the period.

4.1. How to run Period End

To run Period End you need to complete the following steps:

1. Select **Balance Period End** on the *Balance Maintenance Screen*.
2. When the screen displays, select **Run Period End**.

RUN PERIOD END

Balance Period End

Choosing this option will close period 2019 (01-Jan-2019 to 31-Dec-2019) for Annual Leave (AL01). Balance values may be altered according to thresholds set for this period. Are you sure you want to run the period end?

NO **YES**

4. Select **Yes**
5. The button at the end of the screen changes to the following.

RUNNING PERIOD END...

6. Once the process is finished, you will see **Complete** at the top of the screen.

4.2. View Thresholds and Errors Screens

There are two buttons on the top right-hand corner of the screen which give access to the following screens:

- **View Thresholds**
- **Errors**

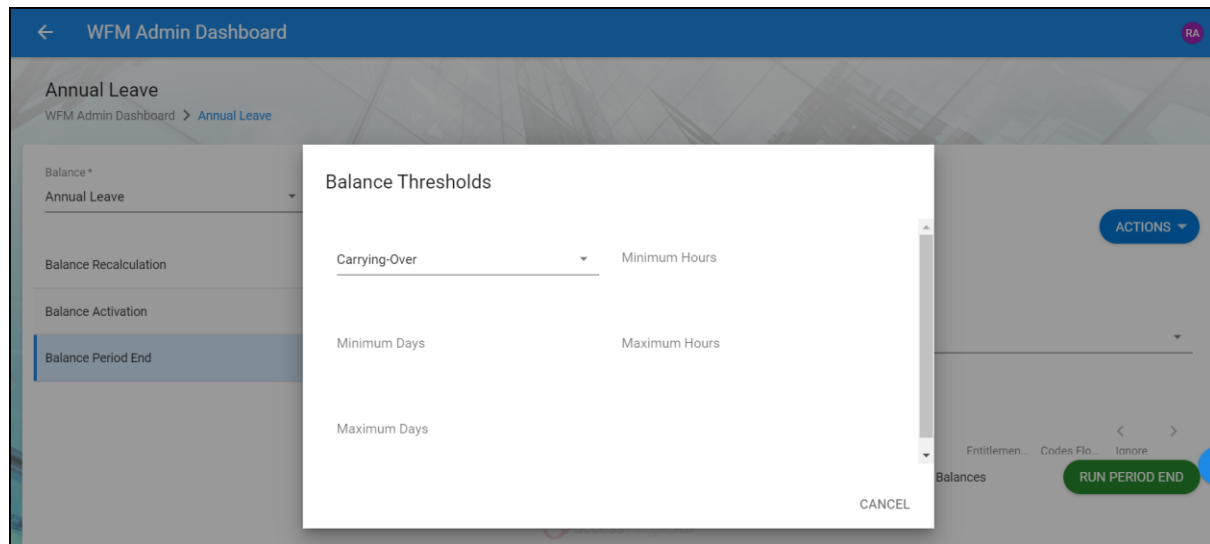

The screenshot shows the WFM Admin Dashboard for Annual Leave. The sidebar on the left contains a dropdown menu for 'Balance' with 'Annual Leave' selected, and three buttons: 'Balance Recalculation', 'Balance Activation', and 'Balance Period End'. The main content area features a search bar, a date range selector set to '2019 (01-Jan-2019 to 31-Dec-2019)', and a filter dropdown set to 'All'. Below this is a table with the following data:

Person	Name	Balance T.	Reserved	Floating	Accrued	Carrying...	Taken	Balance	Threshold L.	Threshold Status	Override Threshold
000004	John Ryan	Days	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	0		
000005	Ann Simpson	Days	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	0		
000047	William Gordon	Days	Open 0 Close 0	Open 28 Close 28	Open 0 Close 0	Open 0 Close 0	Open 0 Close 0	Open 0 Close 28			

At the bottom right, there is a checkbox for 'Include Inactive Balances' and a green button labeled 'RUN PERIOD END'.

4.2.1. View Thresholds

By selecting **View Thresholds**, you can view the minimum or maximum threshold in days or hours which are allowed to be carried over or as part of period end. Thresholds values are entered in the balance calendar configuration stage to as they may vary from period to period.

4.2.2. Errors

Should any errors be found by the system during the Balance Period End process, these can be viewed and resolved on the Errors Screen.

4.3. Use of Thresholds

Thresholds allow the system to automatically apply a limit to the allowed carry over from one period to the next, e.g. the maximum allowed may be 5 days from one leave year to the next. In certain circumstances, employees may be allowed to carry over values in excess of the allowed threshold. In this case, admin staff can apply an Override Thresholds that bypasses the defined threshold limit.

4.3.1. View Thresholds

Click the **Thresholds** button to view the minimum or maximum allowed to be carried.

4.3.2. Steps to Override Thresholds

Where applicable, the following steps outline how to apply threshold overrides.

Run the Period End

The Threshold status of **Applied** displays for employees indicating the **Threshold** automatically applies a limit on the allowed carry forward from one period to the next.

Note:

The Period end must be completed first, once completed you can then override as required

Apply the Override Threshold

When the override is completed (see the status chip and progress bar) the period remains on screen.

Search for the employee(s) and enable the override toggle. Once enabled, this automatically overrides the previously applied threshold and the carryover values are updated.

4.4. Period End Menu Options

The following menu options are needed to set up Balance Period End:

View	Menu Option
Balance Period End	WFM Admin > Balance Maintenance > Balance Period End (663102273)
