1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to explain the *Employee Calendars* screens which have now been brought out to Portal. This guide covers:

- *The Calendar Configuration Screen*
- *The Calendar Screen*

2. The Calendar Configuration Screen

2.1. Overview

For the screens to show the data, the calendars first need to be configured. This means you can assign colours to absences as well as shift types, pay codes and annual leave, depending on your preference.

From here you can configure the following:

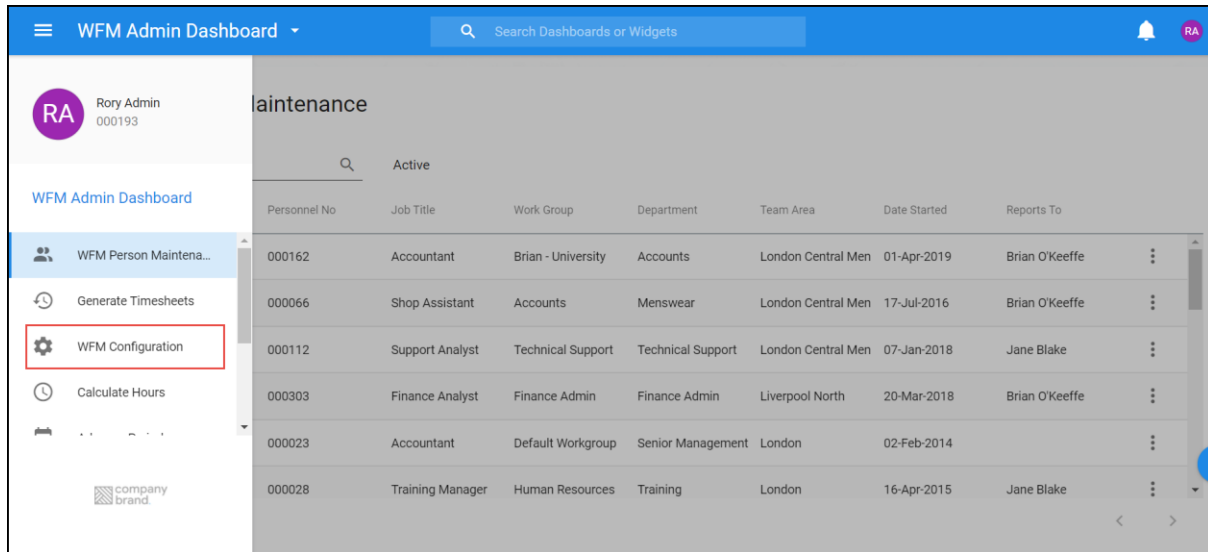

- Global Calendar settings
- Pay codes setting
- Employee Pay Codes
- Manager Pay Codes
- Admin Pay Codes

2.2. How to access the Calendar Configuration Screen

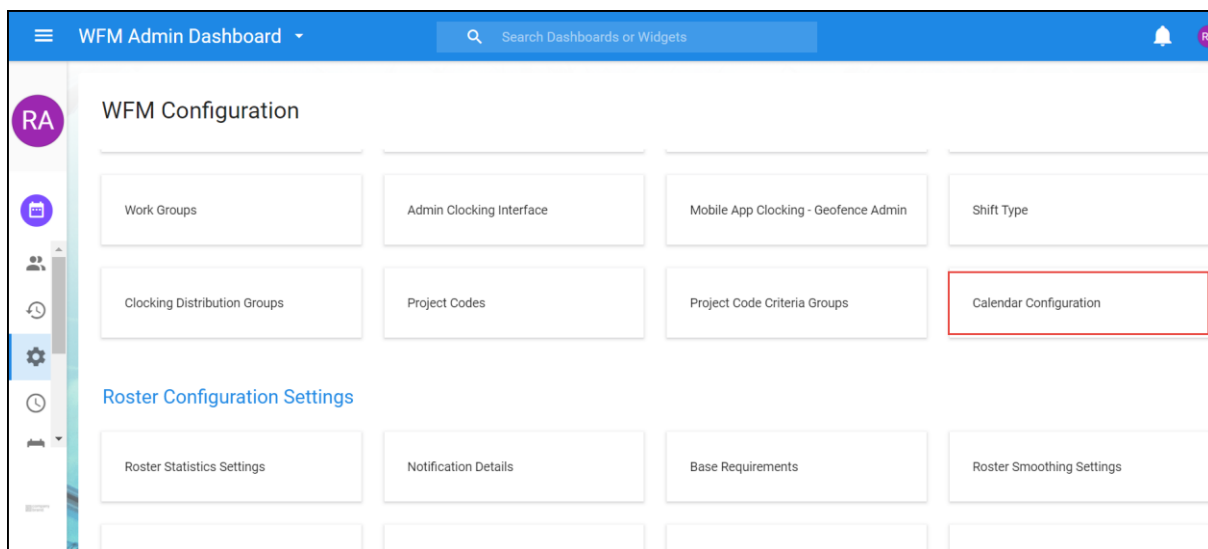

To go to the *Calendar Configuration* screen:

1. Quick jump to *WFM Dashboard*.
2. Select **WFM Configuration**.

WFM: Employee Calendars - User Guide

3. Select **Calendar Configuration**.

4. The screen displays.

The screenshot displays the 'WFM Admin Dashboard' with a 'Calendar Configuration' section. Under 'Global Calendar Settings', there are four main configuration areas: 'Calendar Start Day' (set to Monday), 'Rolling Months' (set to Month), 'Offset Current Month By' (set to 1), and 'Work Schedule Colour' (set to Purple A400). Below these, there are 'Action Required Colour' (Red 400) and 'Company Events' (Deep Purple A200). A sidebar on the left shows 'Pay Code Settings' with options for 'Admin Pay Codes' and 'Manager Pay Codes'. The main area contains a search bar and a table with columns: 'Pay Code Description', 'Admin Enabled', 'Manager Ena...', 'Employee En...', 'Colour', 'Order Priority', 'Calendar Code', and 'Highlight Ov...'. The 'access PeopleXD' logo is visible at the bottom.

2.3. The Calendar Configuration Screen

The *Calendar Configuration Screen* controls the data displayed on the calendar grid. The settings are detailed in the table below.

Field	Details
Calendar Start Day	With this dropdown menu, you can decide which day of the week you wish the calendar to start on.
Rolling Month	This allows you to choose either Fixed or Month . Some companies will have a fixed year while others will have a rolling year. This facilitates this difference.
Month Offset	This allows you to view previous calendar months. For example, if you select -3 it means viewing the previous 3 calendar months from the current month.
Shift Colour	You can decide what colour you wish to associate with shifts.

Action Required Colour	You can use colour codes for any specific action that is required such as approving or rejecting.
Company Events	You can use colour codes to highlight company events on the calendar.

2.3.1. Pay Code Settings

The *Pay Code Settings* tab allows you to customize specific pay codes, by using the toggles and dropdowns. There is a separate toggle for Admin, Manager and Employee. If any one of these is enabled it will make the pay code visible to that level.

The screenshot displays the 'WFM Admin Dashboard' with a 'Calendar Configuration' sub-section. Under 'Global Calendar Settings', there are dropdowns for 'Calendar Start Day' (Monday), 'Rolling Months' (Month), 'Offset Current Month By' (1), and 'Work Schedule Colour' (Purple A400). Below these are 'Action Required Colour' (Red 400) and 'Company Events' (Deep Purple A200). The 'Pay Code Settings' tab is active, showing a table of pay codes. The table has columns for 'Pay Code Description', 'Admin Enabled', 'Manager Enabled', 'Employee Enabled', 'Colour', 'Order Priority', 'Calendar Code', and 'Highlight Overla...'. Two pay codes are listed: '2244 SOCIAL WELFARE' and 'Add. Paternity Leave (Unpaid)'. Both have their respective toggles for Admin, Manager, and Employee enabled. The 'Colour' column shows a color picker icon. The 'Order Priority' and 'Calendar Code' columns are empty. The 'Highlight Overla...' column has a toggle switch.

Pay Code Description	Admin Enabled	Manager Enabled	Employee Enabled	Colour	Order Priority	Calendar Code	Highlight Overla...
2244 SOCIAL WELFARE	☒	☒	☒				☒
2244							
Add. Paternity Leave (Unpaid)	☒	☒	☒				☒
3750							

Note:

The Pay codes which display in the dropdown menu are entirely configurable for each site.

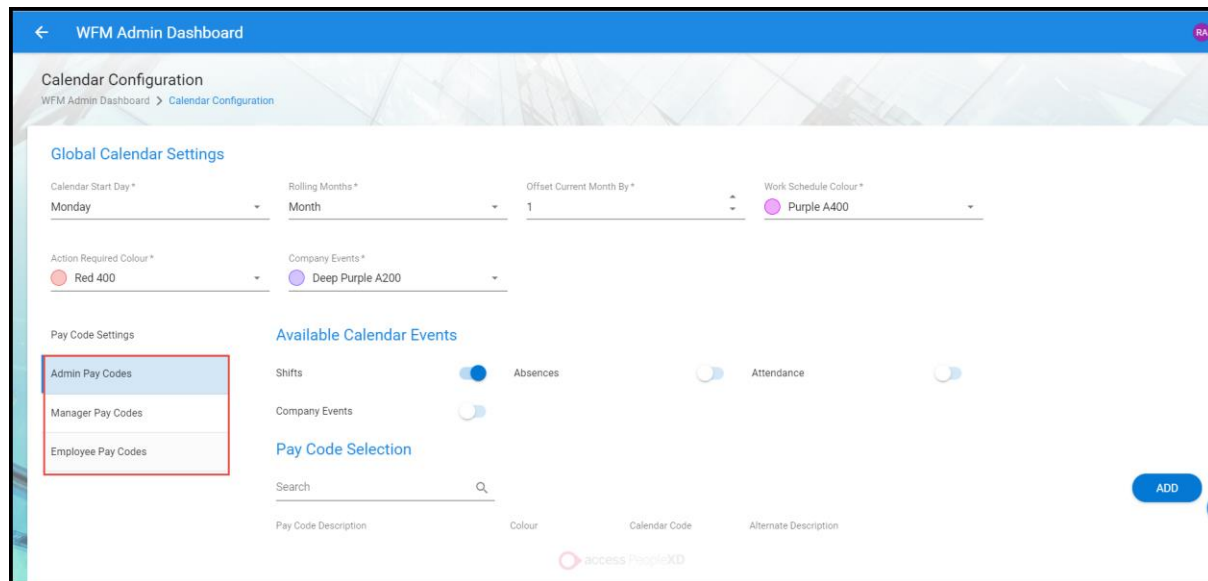

The following toggles and menus correspond to the pay code:

Field	Details
Admin	When this toggle is enabled, an admin specifically can see the pay codes.
Manager	When this toggle is enabled, a manager specifically can see the pay codes.
Employee	When this toggle is enabled, an employee specifically can see the pay codes.
Colour	You can use a colour to differentiate a specific pay code.
Order Priority	You can decide the priority of a pay code and have it displayed first for that day on the calendar.
Calendar Code	A unique three letter code which is associated with the pay code. This field is editable.
Highlight	By enabling this toggle, it underlines the pay code on the Employee calendar screen.

2.3.2. Employee, Manager and Admin Pay Codes Tabs

On the left-hand column of the page, the following tabs are found.

- Admin Pay Codes
- Manager Pay Codes
- Employee Pay Codes

Available Calendar Events

Underneath in the Available calendar Events section there are further controls, detailed in the table below.

Field	Details
Shifts	This toggle controls the visibility of shifts.
Absences	This toggle controls the visibility of absences.
Attendance	This toggle controls attendance.
Company Events	This toggle controls company events.

Also with thin the Employee Pay Code Screen, you can do the following:

- **Search** for a Pay code by description or pay code number
- **Add** Button – With this button you can add a new Pay code by selecting the Add button and selecting a pay code from the drop down, populating in the Calendar code and Alternative Description and selecting OK. For Further information, see [How to Add a Pay code](#)
- **Delete** The user can also Delete a pay code within the grid where a conformation dialog appears to conform the deletion

Manager Pay Codes Tab

The Manager Pay Codes tab functions in the same way as the Employee Pay Codes tab.

The screenshot displays the 'WFM Admin Dashboard' with the 'Calendar Configuration' section active. The 'Global Calendar Settings' are visible, including 'Calendar Start Day' (Monday), 'Rolling Months' (Month), 'Offset Current Month By' (1), and 'Work Schedule Colour' (Purple A400). The 'Pay Code Settings' section shows 'Admin Pay Codes', 'Manager Pay Codes' (selected), and 'Employee Pay Codes'. The 'Available Calendar Events' section includes 'Shifts', 'Absences', and 'Attendance' with toggle switches. The 'Pay Code Selection' section features a search bar and a table with columns for 'Pay Code Description', 'Colour', 'Calendar Code', and 'Alternate Description'. An 'ADD' button is located in the bottom right corner.

Employee Pay Codes Tab

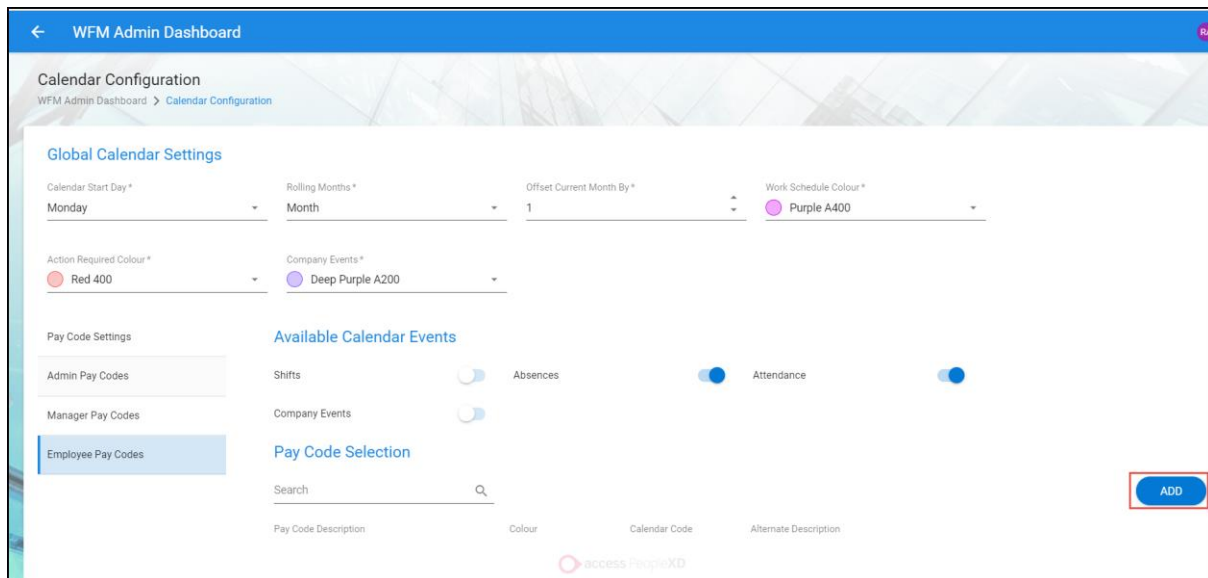

The Employee Pay codes tab also functions similarly to the previous two tabs.

This screenshot is identical to the one above, showing the 'WFM Admin Dashboard' with the 'Calendar Configuration' section active. The 'Global Calendar Settings' are visible, including 'Calendar Start Day' (Monday), 'Rolling Months' (Month), 'Offset Current Month By' (1), and 'Work Schedule Colour' (Purple A400). The 'Pay Code Settings' section shows 'Admin Pay Codes', 'Manager Pay Codes' (selected), and 'Employee Pay Codes'. The 'Available Calendar Events' section includes 'Shifts', 'Absences', and 'Attendance' with toggle switches. The 'Pay Code Selection' section features a search bar and a table with columns for 'Pay Code Description', 'Colour', 'Calendar Code', and 'Alternate Description'. An 'ADD' button is located in the bottom right corner.

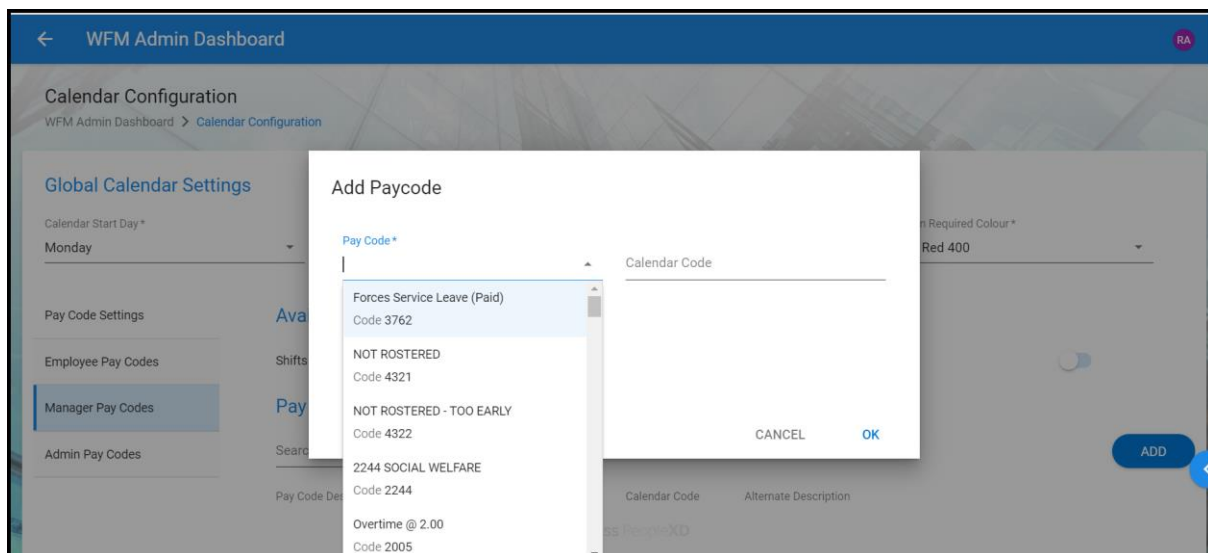

2.3.3. How to Add a Pay code

To Add a Paycode:

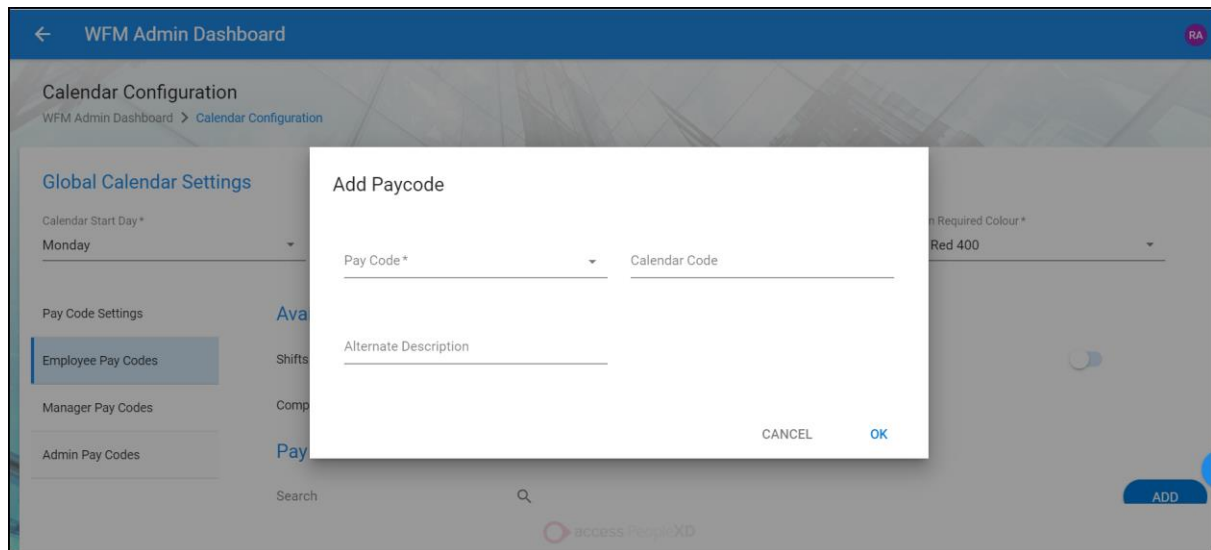

1. On the bottom right of the Calendar *Configuration* screen, click the **Add** button.

2. Select the **Pay Code** from the drop-down list.

3. Select **Calendar Code**.

4. Select **Alternate Description** should you wish to label it differently.
5. Click **Ok**.

3. The Employee Calendar Screen

3.1. Overview

The *Employee Calendar screen* displays the work schedule of the employee for 12 months and any actions which are to be approved or rejected. The codes which have been configured and colour coded on the screen display on the calendar.

Employee calendar is available from the following areas :

Employee :

- My Calendar Widget
- My Request Widget
- Work week Widget

Manager :

- My Team Widget
- Workforce Management Dashboard

Admin :

- WFM Admin Dashboard

3.2. How to access the Employee Calendar Screen

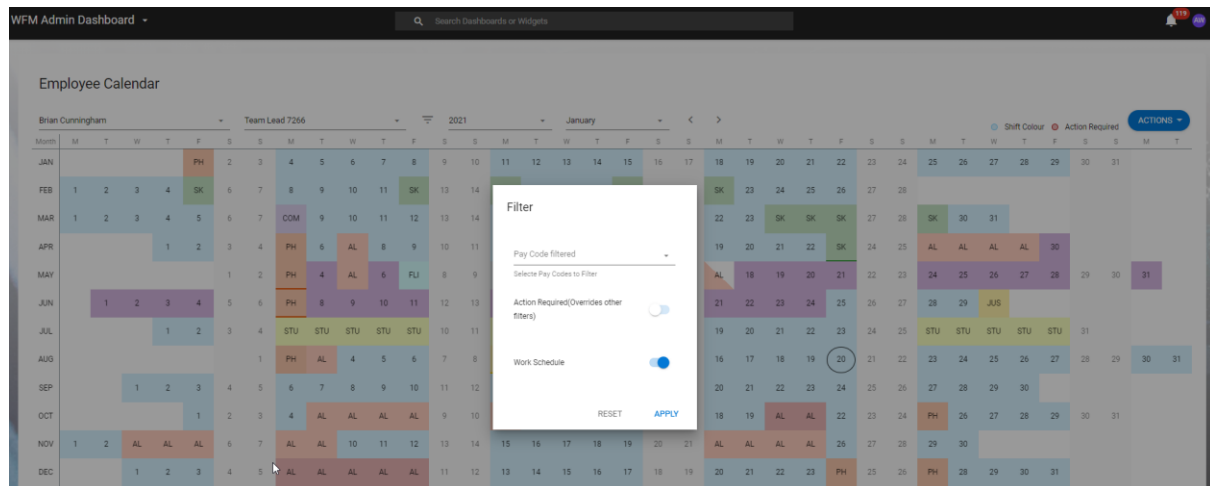

To access the *Employee Calendar Screen*:

1. Quick jump to *WFM Admin Dashboard*.
2. Select **Employee Calendar** from the left-hand column on the screen.
3. The screen displays.

•

WFM: Employee Calendars - User Guide

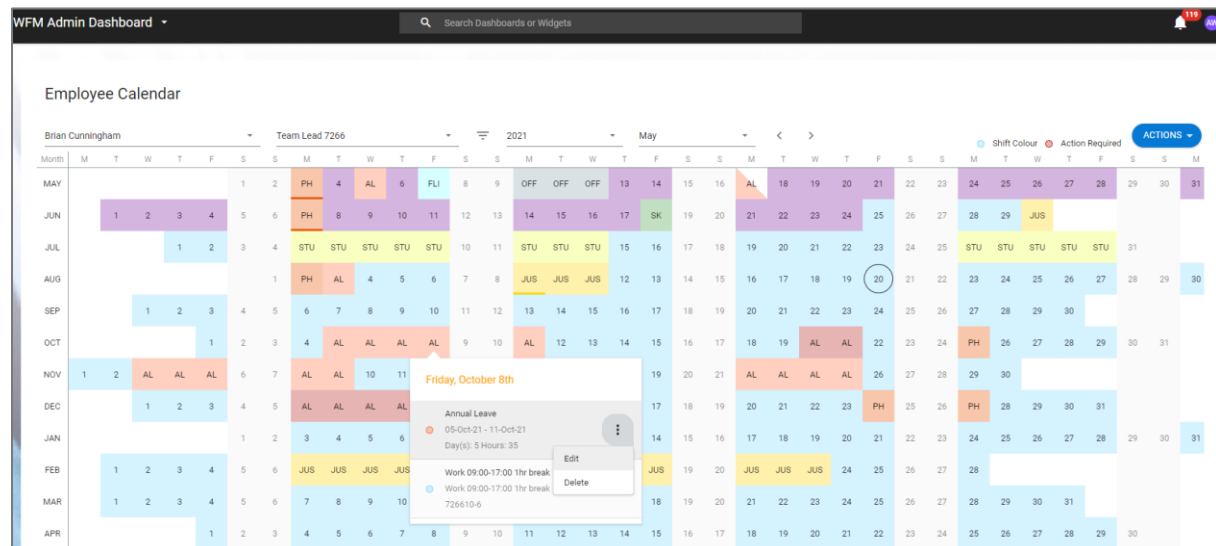

Note:

You can change the year and the month should you wish to check a period in the past.

Approving or rejecting hours on the calendar grid

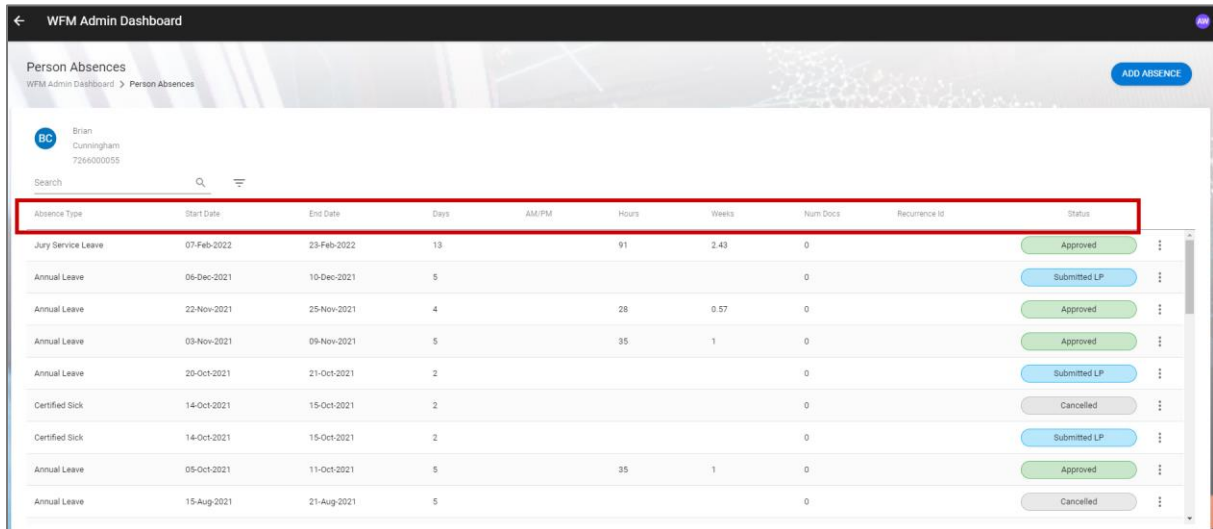

Within the calendar grid, you can hover the cursor over the highlighted dates and approve or reject them as appropriate.

By clicking **Edit**, you are brought to the *Approvals* screen, where you can approve or reject the hours as appropriate.

3.3.1. Person Absences

The *Person Absences Screen* shows any recent absences which are recorded for a specific employee. Managers and Admins can check the status of the specific absence, whether it has been approved or rejected.

Annual Leave	15-Aug-2021	21-Aug-2021	5				0		Approved
									Cancelled

If you wish to add an absence from this screen you can click the **Add Absence** button in the top right corner of the screen.

3.3.2. Add Absence

Once the option is selected from the **Actions** button, the **Add Absence** details wizard appears. From here you can add a new absence.

You can select a start date and end date in the grid and create a new absence from the add absence button. These dates then auto populate into the start and date fields for the wizard.

The screenshot shows a web application interface for managing employee absences. The main heading is 'Person Absences'. Below it, the user is viewing 'Absence Details: Brian Cunningham - 7266000055'. The breadcrumb trail is 'WFM Admin Dashboard > Person Absences > Absence Details: Brian Cunningham - 7266000055'. On the left, a sidebar contains five numbered steps: 1. Absence Details (active), 2. More, 3. Return to Work Interview, 4. Supporting Documents, and 5. Balances. The main content area is titled 'Absence Detail' and contains several input fields and checkboxes. The 'Leave Type*' field has a dropdown menu with the text 'Select a leave type'. The 'Start Date*' field is set to '20-Aug-2021' with a calendar icon and the text 'Select a start date'. The 'End Date' field is set to '20-Aug-2021' with a calendar icon and the text 'Select an end date'. Below these are four checkboxes: 'Part Day Leave', 'Open Ended', 'Enter Duration', and 'Recurrence'. At the bottom right of the form are two buttons: 'NEXT' (blue) and 'SAVE' (green). A small 'access PeopleXO' logo is visible at the bottom center.

3.4. Control of Edit and Delete Options

There are parameters, listed in the table below, which can stop an employee from deleting or editing a leave request. The parameters now control the delete and edit options for *My Leave Request Widget* from the *Employee Dashboard*.

The Parameters are:

- CP_LEAVE_REQ_FUNC,
- CP_LEAVE_REQ_EDIT,
- CP_LEAVE_REQ_DELETE

The table displays the different permutations that can occur when each parameter is turned on or off.

CP_LEAVE_REQ_FUNC	CP_LEAVE_REQ_EDIT	CP_LEAVE_REQ_DELETE	Result
Y	Y	Y	If the status is Not Approved and Not Cancelled, hide none.

			If the status is approved, hide Edit.
Y	N	Y	If the status is not Approved and not cancelled hide Edit. If the status is approved hide Edit
Y	N	N	If the status is not Approved and not cancelled hide Both. If the status is approved hide Both
N	Y	Y	If the status is not Approved and not cancelled hide none. If status is approved hide none. This overrides all the above for return to employee requests. If approved and return to employee request Hide Cancel.
Y	Y	N	Edit and Cancel options are hidden.
N	N	Y	Edit and Cancel options are hidden.

N	Y	N	Edit and Cancel options are hidden.
N	Y	N	Edit and Cancel options are hidden.
N	N	N	Edit and Cancel options are hidden.

3.5. Roll back weeks & Historical Hours

Once **Maintain Historical hours** is turned on under system users, then the roll back weeks for Employee and Manager can be triggered if the employee calendar is also on. To get to this screen, connect to the back office and navigate to System Users.

Ignore Date Entry Restriction overrides everything and no date restriction is applied if this is selected.

The screenshot shows the 'System Users' configuration window. The 'Access Privileges' section is expanded, showing various options for the 'H.R. User'. Two checkboxes are highlighted with red boxes: 'Maintain Historical Clockings' (checked) and 'Maintain Historical Hours' (checked). Another checkbox, 'Ignore Date Entry Restriction', is unchecked and also highlighted with a red box. The 'Select Detail' dropdown menu is set to 'Access Privileges'.

4. Menu Options

To access and to configure both the Calendar screens you need to enable the following menu options:

Web Service	Details
Get Settings Global	WS_ROSTER_MENU.GET_SETTINGS_GLOBAL - 7ba8921eba82fa9d291f63b7a3dfb3e6

Get Attendance Proxy (Entire Organization)	ws_roster_menu.get_attendance - 3d06f0d74d4ce6a283c57e3154b2ca9f

4.1.2. Employees

The following menu options control the access for employees:

Web Service	Details
CorePortal Employee Calendar	MAIN_MENU.ABSENCE_CALENDAR_EMP 1010068040
Get Absences	WS_LEAVE_MENU.GET_ABSENCES e1e3fec92ef83ace8ee4d02f845821c5
Get Person Shifts	WS_SHIFTS_MENU.GET_PERSON_SHIFTS 3b7955a0bea96afa535f6c540e1f1eba

Get Attendance

ws_roster_menu.get_attendance
1b5b2d7a792c0ba7db4c407d50528402

4.1.3. Absences and Leave Requests

Web Services	Details
Get Absences all	Get absences all - Leave > Get absences all
Get Absences all Proxy	Leave > Get absences all Proxy (Entire Organization)

4.1.4. Recurring Absences:

Web Services	Details
Create Absences recurring	Leave > Create absences recurring (b751f140b765b6def857e9f438136de7)
Create Absence recurring Proxy	Leave > Create absences recurring Proxy (Pers Post Access, Team Area Access, System User Access) (4099c3601b8a81d86e9b9edcffc41a1b)
Delete Absences Recurring	Leave > Delete absences recurring Proxy (Pers Post Access, Team Area Access, System User Access) (ebb595260666b953b20866d517761cfa)
Delete Absences Recurring	Leave > Delete absences recurring (a9f2ff7fc4921d4c40c76b89950df67e)

4.2. Importing Menu Profiles

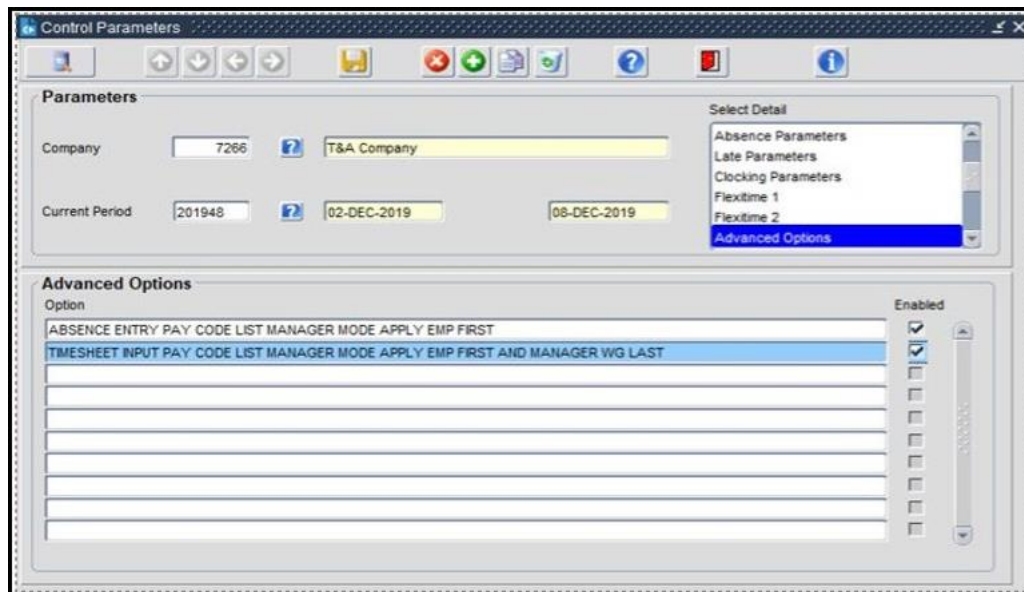

There are three default menu profiles for Admin, Manager and Employee users :

- WFM_EMP_CALENDAR_ADMIN
- WFM_EMP_CALENDAR_EMP
- WFM_EMP_CALENDAR_MGR

To import the menu profiles, complete the following:

1. Quick jump to *Security*.
2. Click on the **Menu Profiles**.
3. Select the Menu Profiles widget and choose the menu profile you wish to use.
4. Select the **Import Menu** options, from here you can import the above default menu profiles to the users own menu profile.
5. Within the import window, select the **From Existing menu profiles** and select one of the above default menu profiles and click **OK**.
6. From here a Confirm import message appears and click **Yes** or **No**.

4.3. Link Manager Paycode use to those of an Employee

In Portal when Personalised Pay Code group is set up, the admin team can record absence such as Sickness on behalf of employees once the following advance option is turned on.

'ABSENCE ENTRY PAY CODE LIST MANAGER MODE APPLY EMP FIRST'
