1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to show the changes which have been made to the Person Maintenance screens which have now been migrated to Core Portal. The *Person Maintenance* Screen was previously only available in back office forms. It is now available in Portal.

A new WFM Administrator dashboard is now available to Administrators to complete their key WFM tasks. As the Administrator tasks become available on Portal, they will be added to the *Workforce Manage Admin Dashboard*.

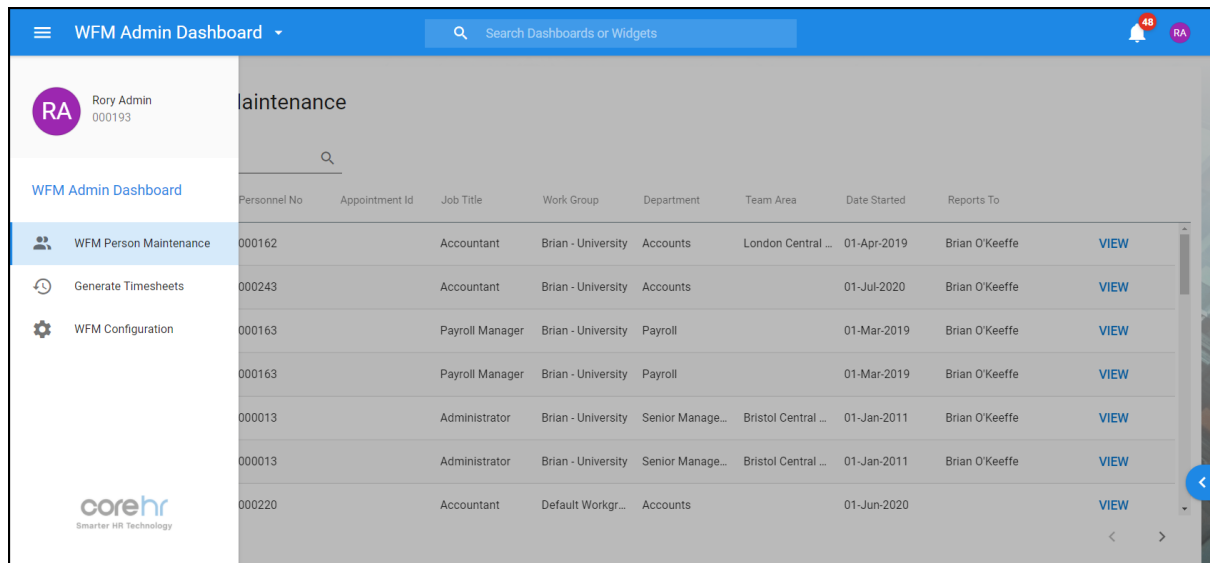

The purpose of the Person Maintenance screen is to provide a central area where administrators can view and amend employee's information that relate to Workforce Management.

As part of the migration, a number of enhancements have been completed to provide administrators with key tasks they need to complete in the one place.

To begin with the following will be available on the dashboard:

- WFM Person Maintenance
- Generate Timesheets
- WFM Configuration

.

1.2. Person Maintenance Screens

This guide aims to detail each of the screens available on Person Maintenance and the tasks which can be completed. It will give information on the following screens:

- *Key Information*
- *Team Area Assignment*
- *Work Schedule*
- *Absences*
- *Balances*
- *Personal Settings*
- *Work Group Override*
- *Personal Groups*
- *Leave Request History*
- *Badge Details*
- *Next of Kin*
- *Roster Contract*
- *Shift Swap History*
- *Uncovered Shifts*
- *Qualifications*
- *Attributes*

- *Trigger Points*
- *Contact Information*

2. Employee/ Manager Access

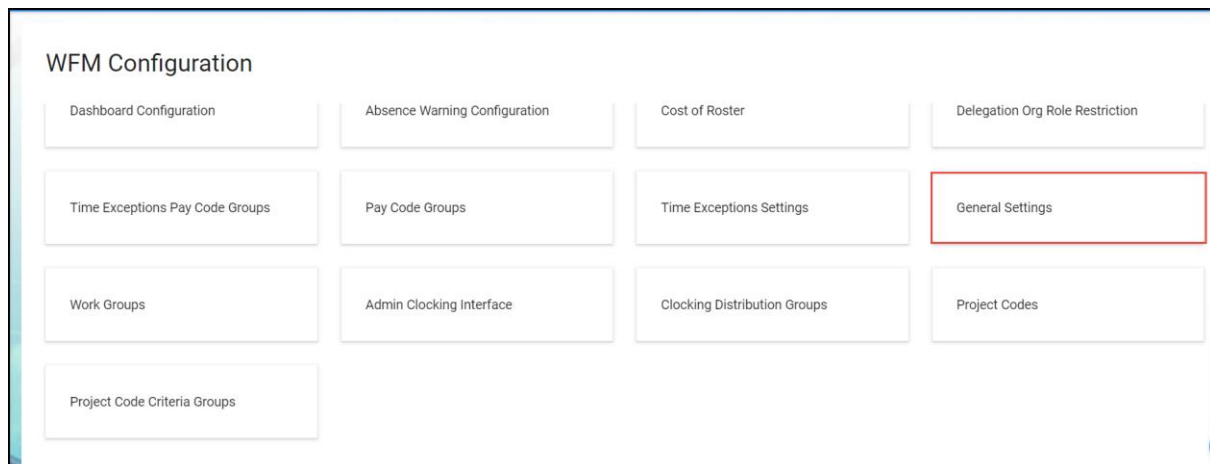

2.1. Admin Access

Note:

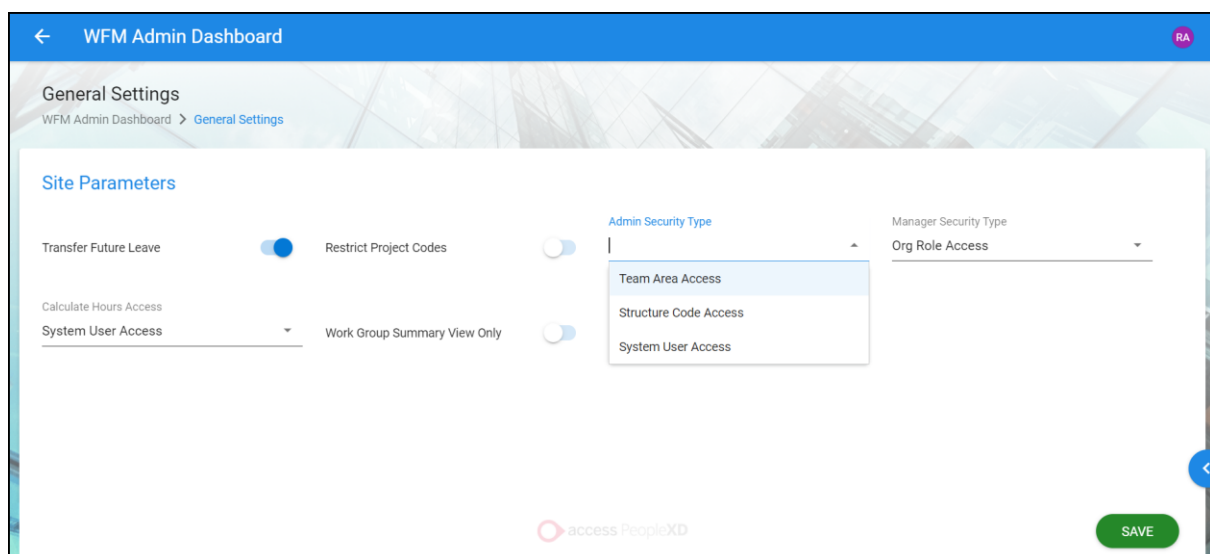

Filters are not currently available on the screen.

To change or edit access you will need to do the following:

1. Quick Jump to the *WFM Dashboard*.
2. Select **WFM Configuration** on the left hand side of the screen.
3. Select **General Settings**.

4. From the drop down menu select Admin Access.

Access for admin users is based on one of the following options:

Access	Details
Structure Code Access	This uses HR access (Hierarchy Structure) and considers if an employee has multiple appointments if it is running in a multi appointment site.
Team Area Access	This is based on the team areas which the administrator has been assigned. If a parent Team Area is assigned access, it is available for employees assigned to any of the sub teams. This is based on the employees Home Team area. Team Area considers if an employee has multi appointment in a multi appointment site.
System User Access (Work Group/ Department Access	Access is at a person level and does restrict access based on an employee's appointment if running in a multi appointment site.

**Note:**

Only employees with an active Team Area will be displayed when running Person Maintenance by Team Area access. If the team area is ended with a historical date, they will no longer be visible on Person Maintenance.

2.2. Manager Access

Manager access is based on one of the following:

Access	Details
Org Role Access	Appointment driven if run in a multi appointment site.

Team Area Access

Appointment driven if run in a multi appointment site.

To change or edit access you will need to do the following:

1. Quick Jump to the **WFM Dashboard**.
2. Select **WFM Configuration** on the left hand side of the screen.
3. Select **General Settings**.
4. From the drop down menu select **Manager Access**.

The screenshot shows the 'WFM Admin Dashboard' with a 'General Settings' section. Under 'Site Parameters', there are several toggle switches and dropdown menus. The 'Manager Security Type' dropdown is open, showing 'Org Role Access' as the selected option, with 'Team Area Access' and 'Org Role Access' as other options. The page includes various site parameters like 'Transfer Future Leave', 'Restrict Project Codes', 'Admin Security Type', 'Calculate Hours Access', 'System User Access', and 'Work Group Summary View Only'. A 'SAVE' button is at the bottom right.

Note:

When running Person Maintenance by Team Area Access, you can only view employees whose Team Area you have access to. In a T&A only site, when adding a new employee, access is based on Team Area. You have access to assign the employee a Team Area on the creation screen and this ensures you have access to the employee once created.

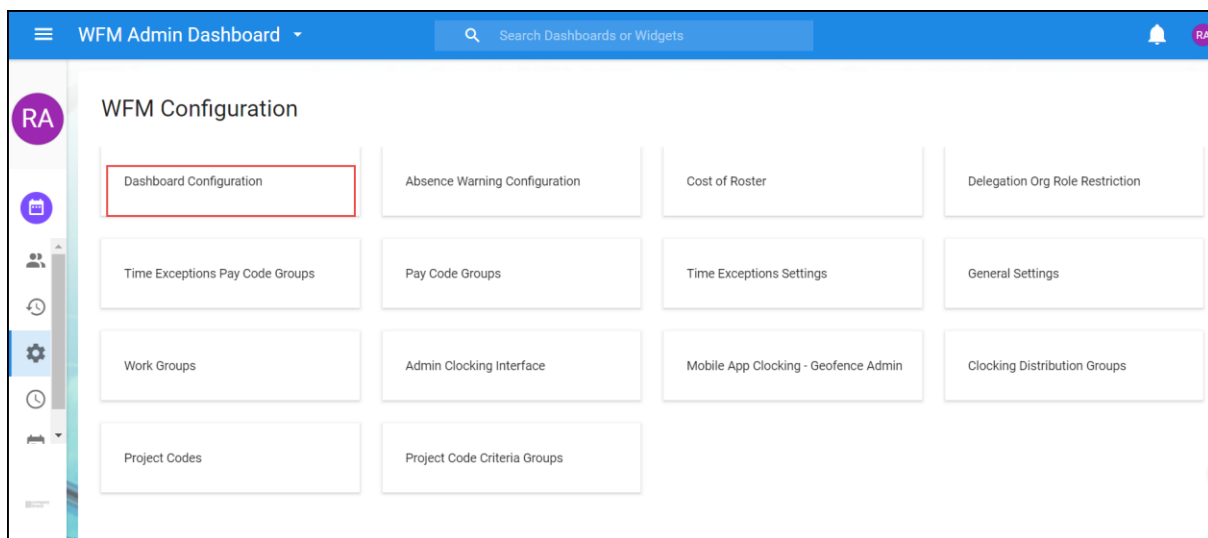

3. Dashboard Order

Dashboard Order allows a site to choose which of the screens it wishes to prioritize. This may vary from site to site depending on the daily and weekly tasks performed by a manager or an admin.

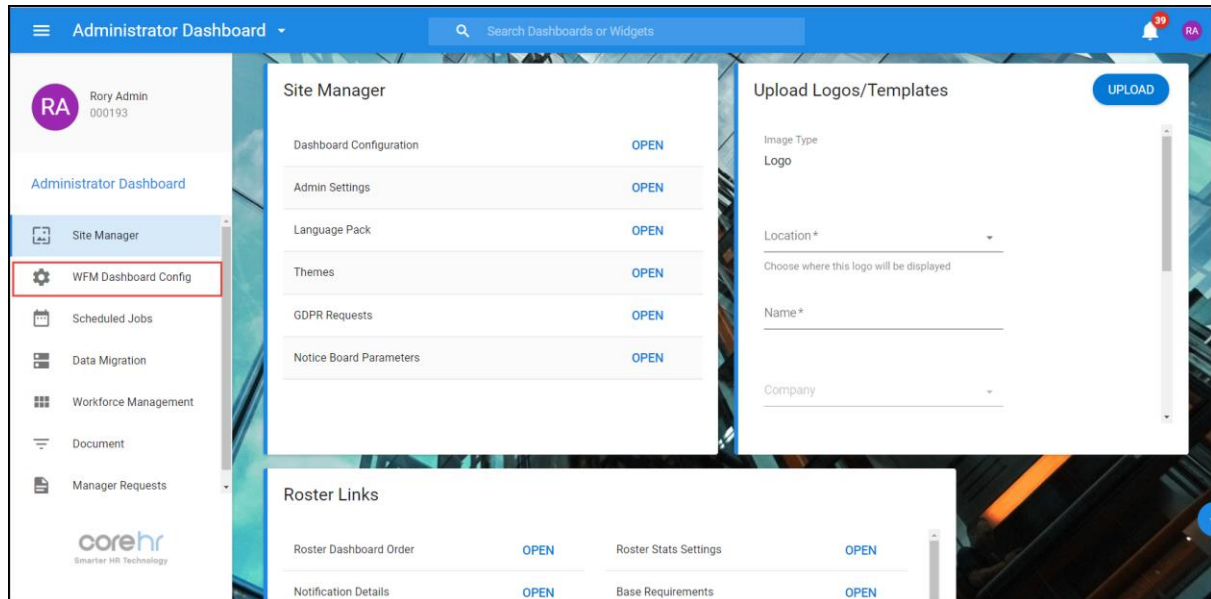

The screen order can be changed from the default to one which is more suitable for the site. There is also a default button which allows you to reset the screens to their original order, should there be a change in priority or any errors made.

To change the order:

1. Quick jump to *WFM Admin Dashboard*.
2. Select **WFM Configuration**.

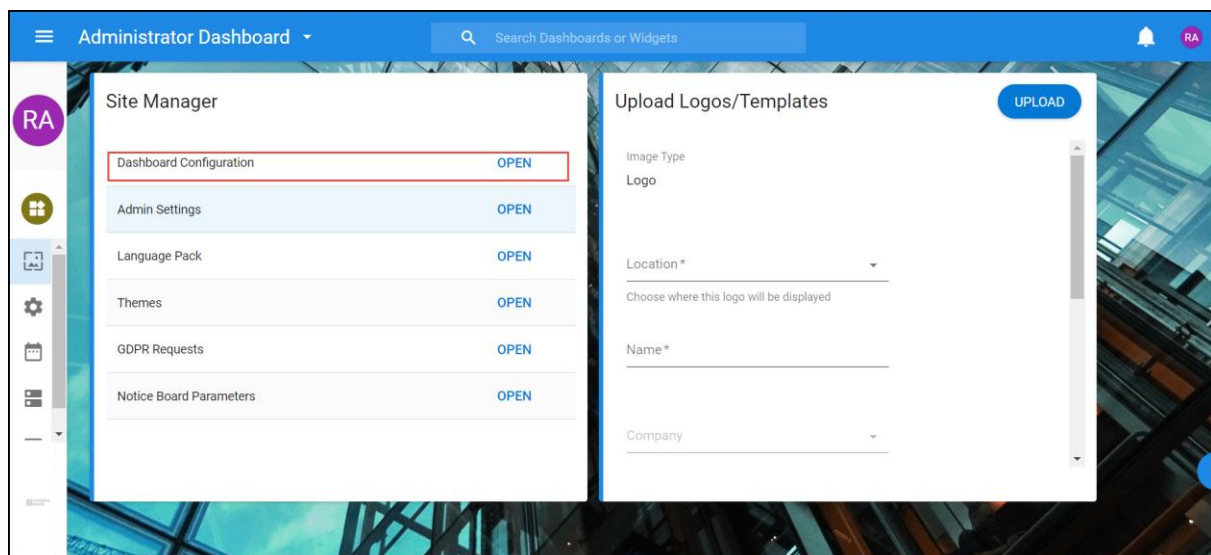

3. Select **Dashboard Configuration**.

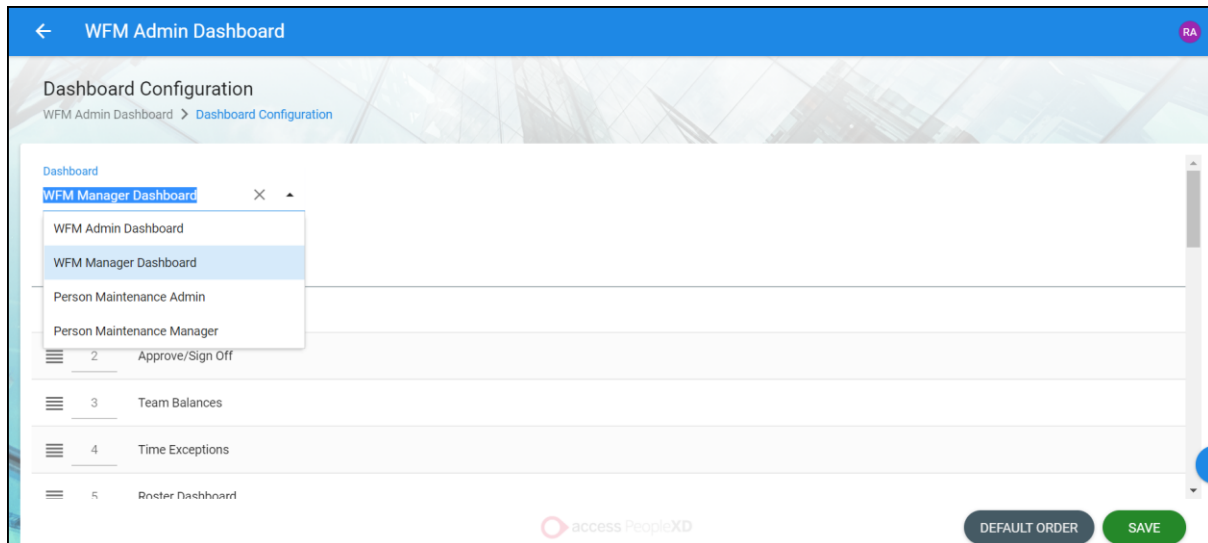

You can also access the *Personal Maintenance* screen by completing the following:

1. Quick Jump to *Administrator Dashboard*.
2. Select **Dashboard Configuration**.

There are four options in the dropdown, with two options specifically relating to Person Maintenance:

Dashboard	Details
Person Maintenance Admin	Controls the order of the screens from the Person Maintenance screen when accessed from the Administrator Dashboard.
Person Maintenance Manager	Controls the order of the screens from the Person Maintenance screen when accessed from the Manager Dashboard.
WFM Admin Dashboard	This controls the order of the screens through the WFM Admin Dashboard.
WFM Manager Dashboard	This controls the order of the screens through the WFM Manager Dashboard.

Note:

The order of the screens can be changed by dragging them to the position you want to have them displayed.

Note:

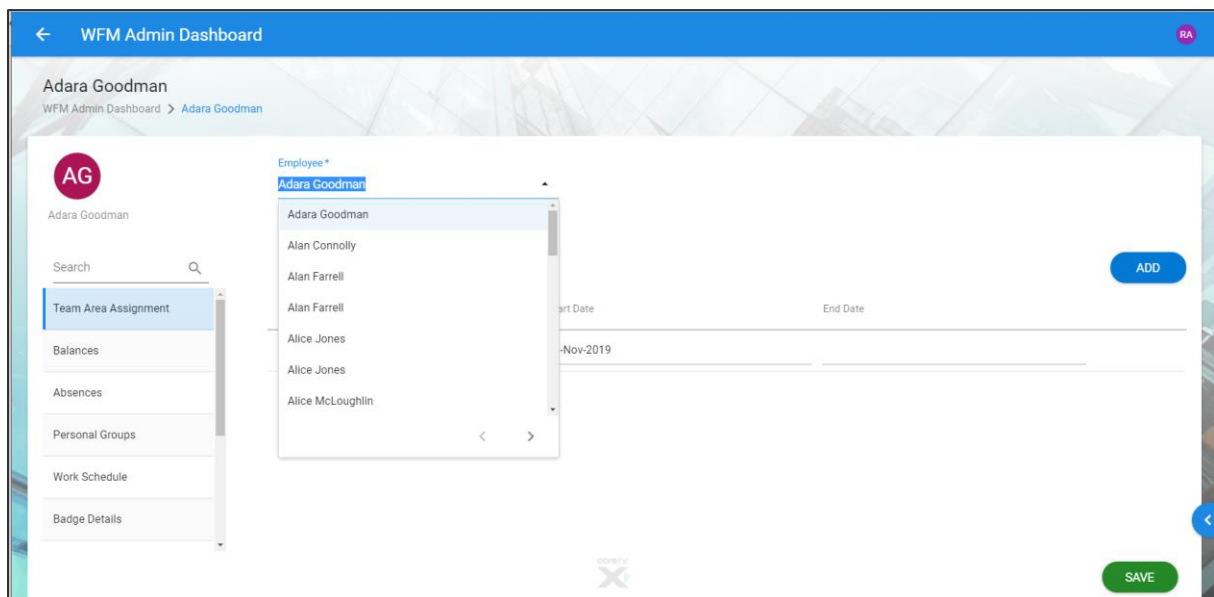

The **Default Order** button allows you to reset the screens to their original order after subsequent changes.

4. Employee Navigation

Administrators can navigate between employees by changing the employee displayed on the top of the screen. This option is available from all screens within Person Maintenance for easy navigation and is based on user access.

Administrators can also navigate back to the initial landing page to select another employee.

In the screenshot below, we see the administrator calling up another employee on the *Team Area Assignment* screen.

Note:

In the dropdown for employees in employee navigation users can search by name, personnel number, post title, department, cost centre and workgroup,. This is possible throughout the Person Maintenance screens.

5. Leavers

The *Leavers* screen allows users to search for any employees who may have left the company.

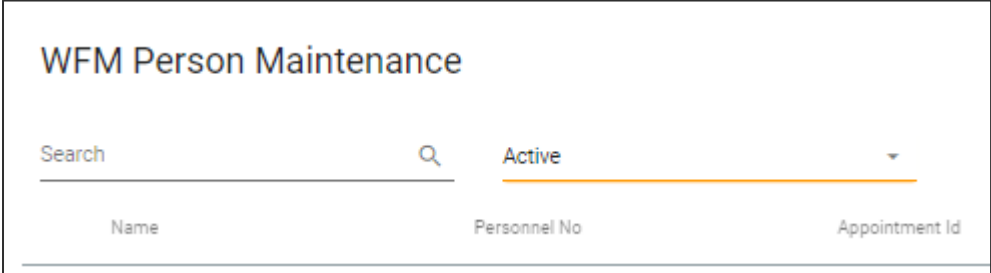

The screen is set by default to show active employees on screen. Users have the ability to display leavers if required.

To display leavers:

- Switch the Active Dropdown option to **Leavers**.

The following screens are read only when a leaver is selected

- *Work Schedule*
- *Roster Contract*
- *Absences*

The screenshot shows the 'WFM Person Maintenance' interface. It features a search bar with a magnifying glass icon and a dropdown menu currently set to 'Active'. Below these are three columns: 'Name', 'Personnel No', and 'Appointment Id'.

WFM Person Maintenance		
Search	Active	
Name	Personnel No	Appointment Id

6. Key Information

The *Key Information Screen* is the default first screen that will be displayed when you navigate to an employee. If you wish to change the order of the screen see [Section 3 Dashboard Order](#). This screen displays the most important pieces of employee's information.

The screen is separated in to two sections:

- Person
- Details

When in a People Management Site, this screen will be view only as the information displayed is fed through from a combination of People Management, Payroll and WFM

User security menu options:

Screen	Menu Option
Key Information (Admin)	WFM Admin > Person Maintenance > Key Information
Key Information (Manager)	WFM Manager > Person Maintenance > Key Information

Person Details

- Forename
- Surname
- Known As – as set in Personnel
- Date Started
- Date Left

Details:

Field	Detail
Contract Hours	This is based on a substantive appointment
Standard Hours	This is based on a substantive appointment
FTE	This is based on a substantive appointment
Work Group	This is based on a substantive appointment
Department	This is based on a substantive appointment
Team Area	This only displays if cp_roster_installed=Y
Reports to	This links to the org role and group for my team
WFM Calendar	Links to the calendar linked to the employee or employers work group.
Public Holiday Scheme	The scheme applied to the employee.
Occupational Scheme	This checks the sundry profile for payroll employees and work group for T&A only where payroll is not in use.
Schedule	Employees Shift Type
Select	This identifies if the employee is a generate timesheet employee.
Live	Type of timesheet employee
Payment Rule	Rules that are applied to the employee's payments e.g. Basic Rule, Salary Rule.
Employee	Type of Employee e.g. Salary, Positive Input, Not on Payroll.

7. Work Schedule

The *Work Schedule* screen allows the admin or manager to complete a number of different tasks.

On the screen, you see the variety of employee shifts as well as the following:

- Type of Shift
- Date Effective
- Contract Hours
- Cycle Sequence

7.1. Setting up the Work Schedule Screen

To set up the Work Schedule screen, you need the following menu options:

Menu Option	Description
Work Schedule	WFM Admin > Person Maintenance > Work Schedule
Manager Work Schedule	WFM Manager > Person Maintenance > Work Schedule
Delete	MAIN_MENU.WORK_SCHEDULE_DELETE - 657955
Update	MAIN_MENU.WORK_SCHEDULE_UPDATE - 1717949
Portal Menu	Profile > Get access portal menu
Work Schedule Allow Historical Dates	WFM Manager > Person Maintenance > Work Schedule > Allow Historical Dates
Work Schedule Allow Historical Dates	WFM Admin > Person Maintenance > Work Schedule > Allow Historical Dates

**Note:**

If you want to have the option to Delete a Shift Type assigned to an employee you will need access to both the Update menu option and the Delete menu option.

- MAIN_MENU.WORK_SCHEDULE_DELETE – 657955
- MAIN_MENU.WORK_SCHEDULE_UPDATE – 1717949

7.2. The Work Schedule screen

The *Work Schedule* screen displays the following at the top of the screen:

- Employee Contract Hours
- Standard Hours
- FTE Hours at the top of the screen

All shift cycles are displayed at the bottom of the screen. A shift is either cycle or period based. Where it is period based, the cycle option is disabled.

7.4. How to add a personal override

A personal override is needed when an employee is not working on default shifts.

To add a Personal Override:

1. Select **Add Personal Override** from the dropdown menu 

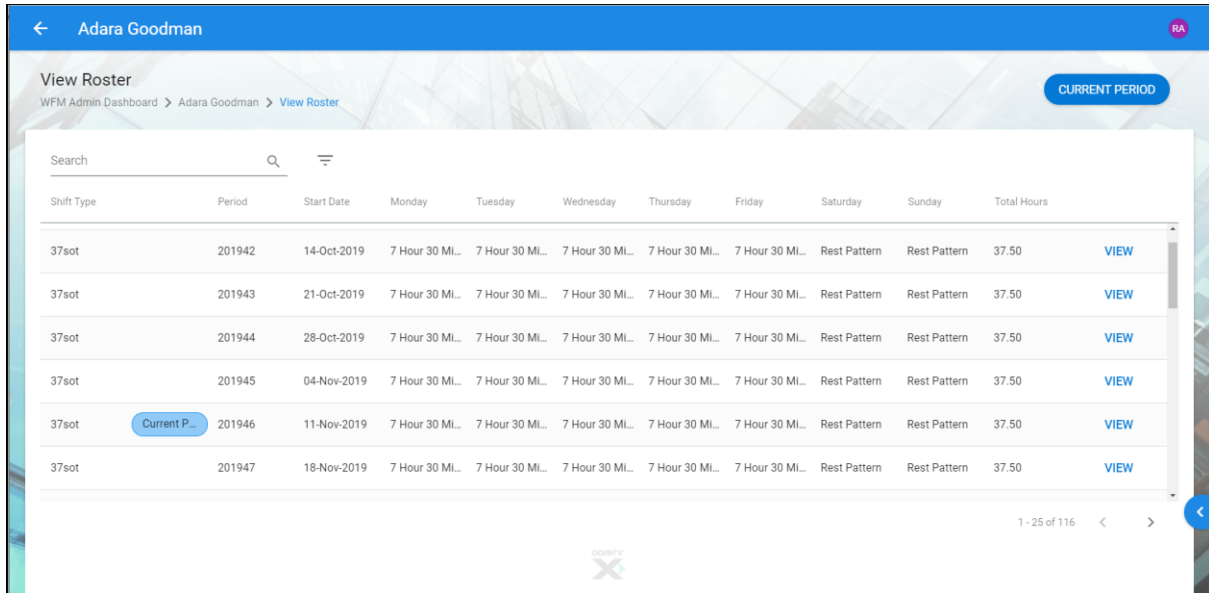

2. Click **Add** to add the Personal Override.
3. Select **Save**.

7.5. How to Access Employee Work Schedule

An employee can access their schedule from *Person Maintenance*. The *Employee Work Schedule* screen shows the shift attached to the employee in the current period, with the ability to assign the employee a new shift or to view the shifts details.

To view your current shift:

1. Click the **Actions** button.
2. Select **View Schedules**.

Thursday	37SOT	37sot	7.50HRS	7 Hour 30 Min Day 09:00...	09:00	17:30	7.5
Friday	37SOT	37sot	7.50HRS	7 Hour 30 Min Day 09:00...	09:00	17:30	7.5
Saturday	37SOT	37sot	REST	Rest Pattern			
Sunday	37SOT	37sot	REST	Rest Pattern			

Note:

If on an appointment driven site, the shift will be assigned to the employee at an appointment level.

7.6. Multi Pattern Framework

Note:

Multi Pattern Framework is advanced configuration and should only be configured at the start of an implementation under guidance as this configuration has implications on the calculations.

The values displayed per day for the work pattern on the *View Schedules* screen can be configured under the Global Parameters in the back-office screen by changing the option for the Team Scheduler.

These options include:

- Name
- Default Hours
- Abbreviation
- Start/End Time
- Short name

Note:

Changing these values will also update the values displayed on the Team Scheduler.

7.6.1. Where to find Multi Pattern details

Multi Pattern details are available on the following screens:

- *View Shift Cycles*
- *Add Personal Overrides*

When configured users can see any additional shifts that have been assigned to a user on a day in addition to their Primary shifts.

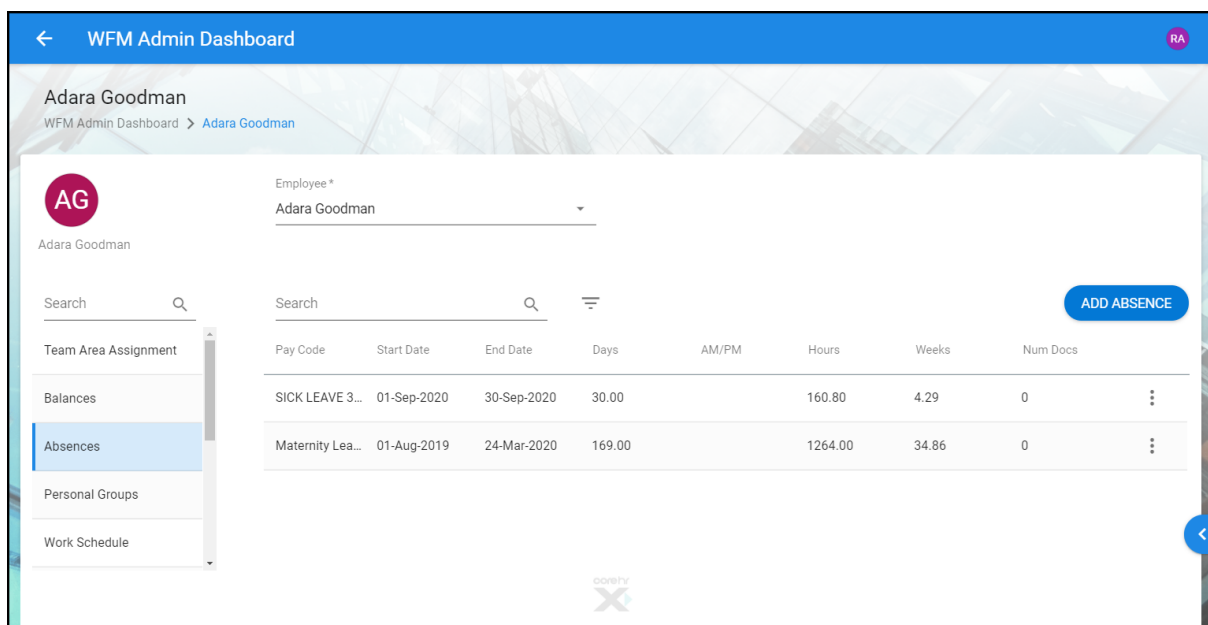

The following web service is required for Multi Pattern Framework:

Setting	Menu Option
Multi Pattern Framework	Roster > Get Shifts Additional

8. Absences

The *Absences* Screen allows a manager or an administrator to do the following:

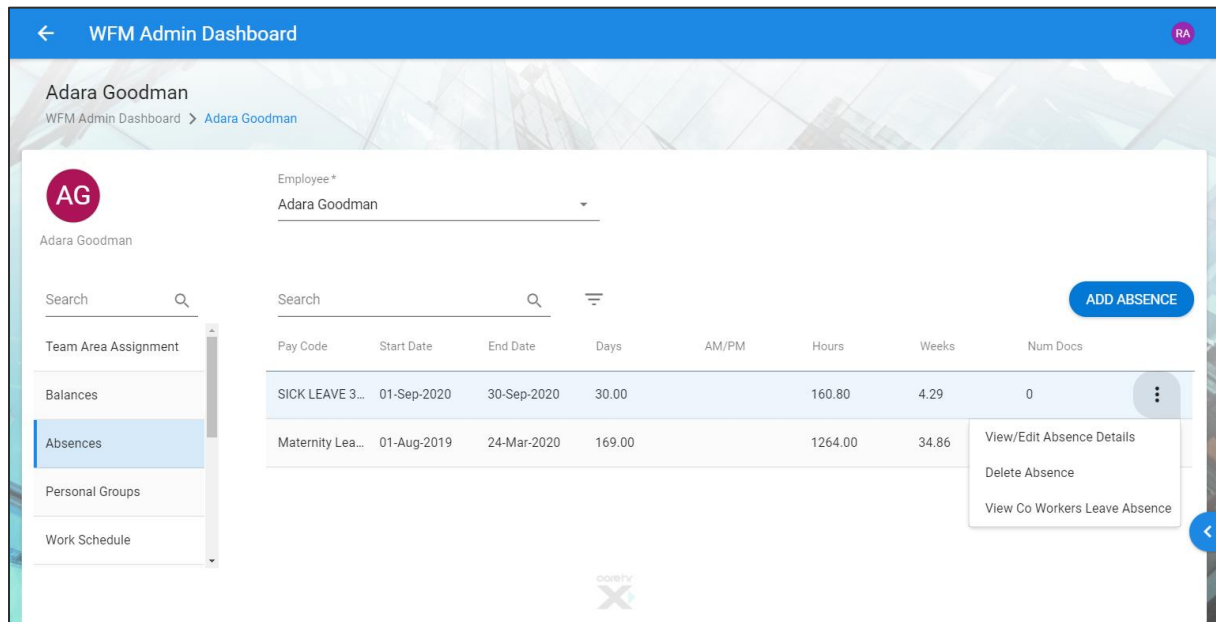

- View employee recorded absences.
- Search the absence grid or filter the grid by pay code.
- Add a new absence.
- Amend an existing absence.

8.1. Setting up Absences

Access to the *Absence Screen* is controlled by the following menu options:

Screen	Menu Option
Absences Admin	WFM Admin > Person Maintenance > Absences
Absences Manager	WFM Manager > Person Maintenance > Absences

8.2. Adding/Amending an Absence

To Add an Absence, complete the following steps:

1. Click **Add Absence**. Fill in the details such as leave type, start/end date.
2. Click **Next**.

The screenshot displays the 'Absence Details: Adara Goodman - 000162' page. The top navigation bar is blue with a back arrow and the name 'Adara Goodman'. Below the header, the page title is 'Absence Details: Adara Goodman - 000162' with a breadcrumb trail: 'WFM Admin Dashboard > Adara Goodman > Absence Details: Adara Goodman - 000162'. On the left, a vertical sidebar contains four numbered steps: 1. Absence Details (active), 2. More, 3. Document Uploads, and 4. Balances. The main content area is titled 'Absence Description' and features a table with columns: From Date, To Date, Illness, Doctor, and Comments. The first row of the table contains the dates '22-Oct-2020' and '23-Oct-2020', and the text 'Back Problems'. Below the table, there is a checkbox labeled 'Supporting Documentation Received'. At the bottom of the main area, there is a 'Documents' section with columns for 'Document Name' and 'File Size'. The bottom of the screen features a blue bar with three buttons: 'PREVIOUS', 'NEXT', and 'SAVE'. A vertical scrollbar is visible on the right side of the main content area.

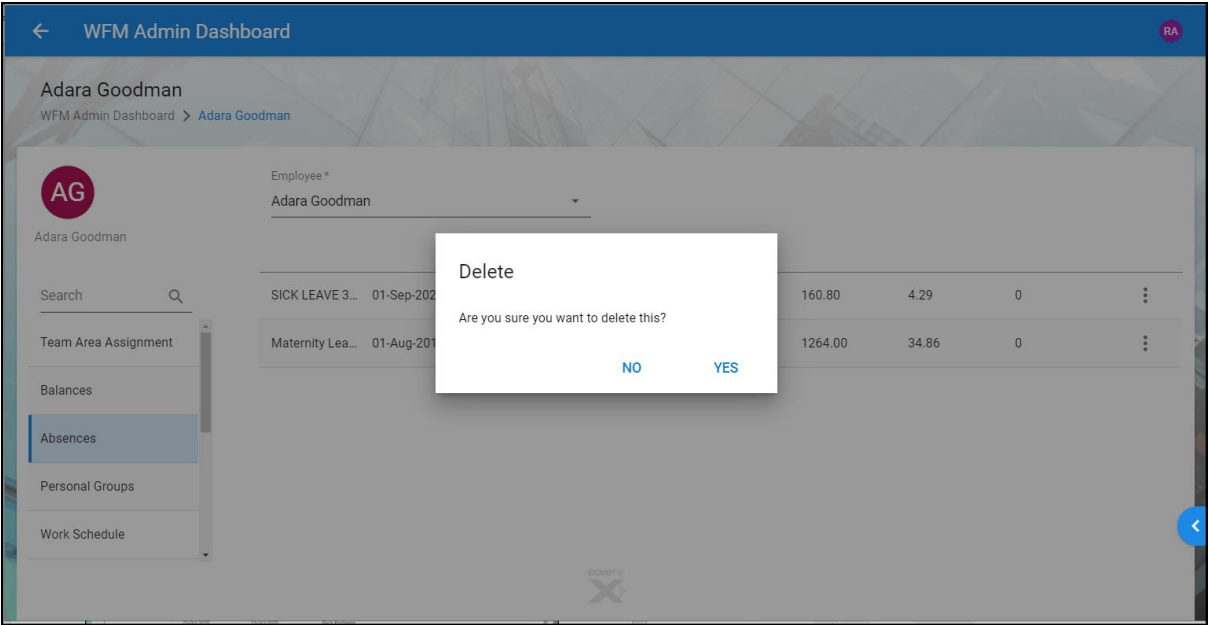

9. The balance displays on the screen.
10. Click **Save**.

8.3. Deleting an Absence

To delete an absence:

1. Select **Delete** from the 
2. Click **Yes** to the message which generates.
3. The absence balance deletes.

9. Balances

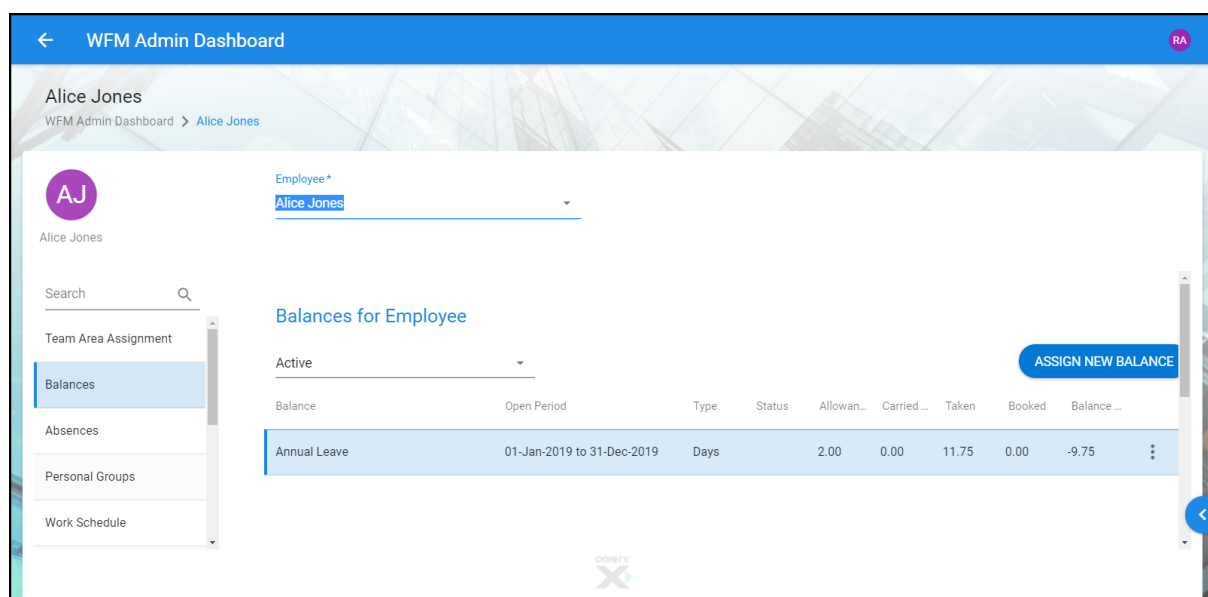

The *Balances* screen allows you to view the balance assigned to the employee. This displays all active balances assigned to the employee with transactions relating to the selected balance at the bottom section of the screen.

If configured, users can also view inactive balances which means a new balance can be assigned to the employee directly from this screen. There is no longer any need to use the back office to assign an employee a balance.

The *Balances* screen is controlled by the following menu options:

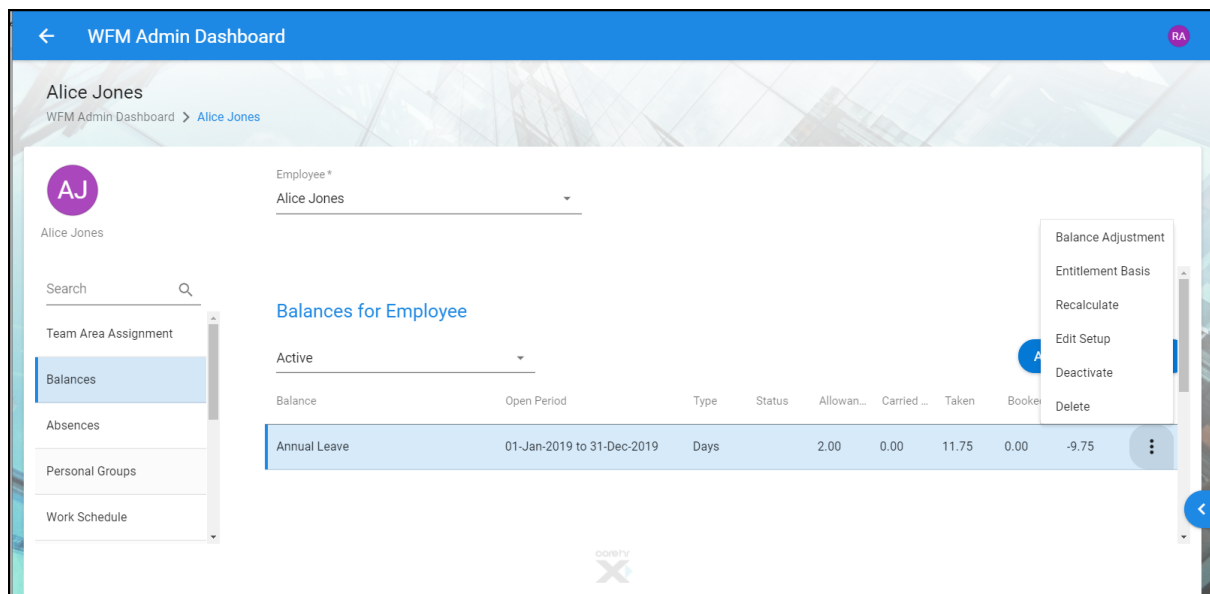

Task	Menu Option
Balances Admin	WFM Admin > Person Maintenance > Balances
Balances Manager	WFM Manager > Person Maintenance > Balances

9.1. Balance Screen Options

The following options can be accessed via the  on the balance row:

- Balance Adjustment
- View Entitlement Basis
- Balance Recalculation
- Edit set up
- Deactivate Balance
- Delete Balance

9.2. Balance Adjustment

To view Balance Adjustment:

1. Select **Balance Adjustment** from the 
2. Here you are prompted to fill in the following:

- Balance
- Period
- Date Effective
- Adjust
- Adjustment Amount
- Reason for Adjustment

3. Once these have been completed, click **Calculate Balance**

4. Click **Save**

The screenshot shows the 'Balance Adjustment' form for Alice Jones. The form is titled 'Balance Adjustment' and includes a breadcrumb trail: 'WFM Admin Dashboard > Alice Jones > Balance Adjustment'. The form is divided into two main sections: 'Adjustment Details' and 'Adjustment History'.

10. Person Settings

A new screen called *Person Settings* is now added to Person Maintenance. This screen is broken out into the following four tabs:

- Employee Settings
- Working Time Directive
- Bradford Factor
- Extra Hours Recoding

**Note:**

Person Settings can be called from HR Administration – Employee Dashboard. This is controlled by the menu option PEOPLE MANAGEMENT > HR ADMIN > EMPLOYEE DASHBOARD > Person Settings.

10.1. Employee Settings

The employee settings displays settings that can be configured at an employee level. The screen is broken down into the following options:

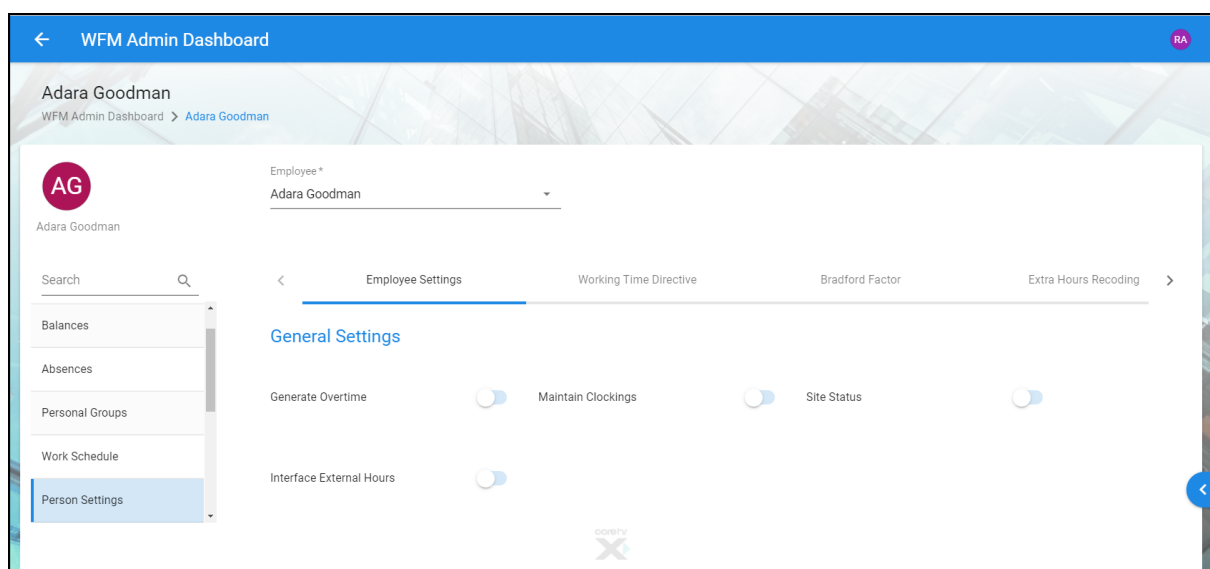

Setting	Description
General Settings	Settings commonly configured against an employee
Advanced Settings	Relates to advanced WFM configuration
Rostering	This is only applicable in a roster site and controls default vault values for unrostered bookings. It also controls Roster attribute groupings and whether an employee's costs should be restricted.
Timesheet Threshold	This Relates to advanced Timesheet configuration.

Person Settings is controlled by the following menu options:

Screen	Menu Options
Person Settings Admin	WFM Admin > Person Maintenance > Person Settings
Person Settings HR Admin	People Management > HR Admin > Employee Dashboard > Person Settings
Community Set up Screen	Core Portal > Community Setup Screen

Web Service Menu Options
Get Pay Overtime
Get Settings person general
Get Settings personal general Proxy (Entire Organisation)
Update Settings person general
Update settings person general Proxy (Entire Organisation)

10.2. Employee Settings

The following Web Services for the Employee Setting Screen within the Person Settings:

Setting	Webservice Option
Person Recoding	Create settings person recoding
Person recoding Proxy Entire Organisation	Create settings person recoding Proxy (Entire Organization)
Delete Setting Person Recoding	Delete settings person recoding
Person General	Get settings person general
Person Recoding Proxy Entire Organisation	Get settings person recoding Proxy (Entire Organization)
Update Person Recoding	Update settings person recoding
Get Settings Person General	Get settings person general
Person General Proxy Entire organisation	Get settings person general Proxy (Entire Organization)
Update Settings Person General	Update settings person general
Update Settings Person General (Entire Organisation)	Update settings person general Proxy (Entire Organization)
Pay code Overtime	Get paycode overtime

10.3. Working Time Directive

The Working Time Directive (WTD) tab displays which WTD Group is attached to the employee and allows the administrator to define the type of worker.

This tab displays what the rule is based on. It also displays the period that is being used to calculate the Working Time Directive average hours as well as Hours Allowed to work.

If you switch between the average hours and pattern hours, the WTD scores recalculate. If you change the dates, the WTD recalculates based on the new period date range.

10.3.1. Menu Options

The following Web Services are required for access to the Working Time Directive Screen:

Setting	Webservice Option
WTD Create Settings	Web Services -> Roster -> Create settings person
WTD Create Settings (Entire Organisation)	Web Services -> Roster -> Create settings person wtd Proxy (Entire Organization)
Delete Settings Person WTD	Web Services -> Roster -> Roster > Delete settings person wtd
Get Settings WTD	Web Services -> Roster -> Get settings person wtd
Get Settings WTD (Entire Organisation)	Web Services -> Roster -> Get settings person wtd Proxy (Entire Organization)
Update Settings Person WTD	Web Services -> Roster -> Update settings person wtd
Person Directive Recalculate	Web Services -> Roster -> Get settings person directive recalculate

The screenshot displays the 'WFM Admin Dashboard' for 'Adara Goodman'. The left sidebar contains a search bar and a list of menu items: Team Area Assignment, Balances, Absences, Personal Groups, Work Schedule, Person Settings (highlighted), and Radcoe Details. The main content area shows the 'Working Time Directive' tab selected. It includes a 'Working Time' section with a 'Working Time Group' dropdown set to 'Working Time Directive' and a 'Worker Type' dropdown. Below this are two radio buttons: 'Average Hours' (selected) and 'Pattern Hours'. At the bottom, there are 'From Period' and 'To Period' date range selectors. The 'From Period' is set to '23-Mar-20 - 29-Mar-20' and the 'To Period' is set to '27-Jul-20 - 02-Aug-20'. A blue button labeled 'AGREEMENT HISTORY' is located in the bottom right corner.

10.3.2. Working Time Directive Agreement History

The Working Time Directive Agreement History tab can be configured at an employee level. Users can add in the details of the Agreement with the specific dates.

To add in the details of the agreement:

1. Click the Add button on the top right hand of the screen.
 - a. Fill in Opt in date
 - b. Opt out date
 - c. Notification Date
 - d. Add in any comments
 - e. Move the toggle for Supporting Documentation Received.
2. Click **OK**.

The screenshot displays a web application interface for 'Adara Goodman'. The main heading is 'Working Time Agreement History'. Below this, there is a breadcrumb trail: 'WFM Admin Dashboard > Adara Goodman > Working Time Agreement History'. A modal window titled 'Add Record' is open in the center. This modal contains the following fields: 'Opt In Date' and 'Opt Out Date' (both with calendar icons), 'Notification Date' (with a calendar icon), 'Comments' (a text input field), and 'Supporting Doc. Received' (a toggle switch). At the bottom right of the modal are 'CANCEL' and 'OK' buttons. In the background, the 'Working Time Agreement History' table is partially visible, showing columns for 'Opt In Date', 'Opt Out Date', and 'Supporting Doc. Received'. An 'ADD' button is located in the top right corner of the background page.

10.4. Bradford Factor

The Bradford factor is a tool which a manager can use to track an employee's absences. This tab shows a manager what the Bradford factor score is for an employee.

- The Bradford factor is used to calculate an employee's Bradford factor score. **$B = S^2 \times D$**
 - S = total number of spells (instances) of absence for that individual in the given period
 - D = total number of days the individual was absent during the given period
 - Managers can specify their predefined Bradford factor rule. This will then calculate the Bradford Factor Score against an employee.
- The details of the score displays:
 - Period
 - Start/End Dates
 - Trigger Value
 - Trigger Level

- Last Calculated

Once the user calculates the score the details display on screen.

The screenshot shows the 'WFM Admin Dashboard' for 'Adara Goodman'. The left sidebar contains a search bar and a list of menu items: Team Area Assignment, Balances, Absences, Personal Groups, Work Schedule, Person Settings (highlighted), and Radine Details. The main content area displays the 'Bradford Factor' settings for 'Adara Goodman'. It includes a 'Bradford Enquiry Rule' dropdown set to 'Bradford Factor'. Below this are fields for 'Current Rule Code', 'Current Rule Name', 'Calendar Period', 'Start Date', and 'End Date'. A 'CALCULATE' button is located at the bottom right of the form.

10.4.1. Web Service Options

To set up the Bradford factor screen, you need the following menu options:

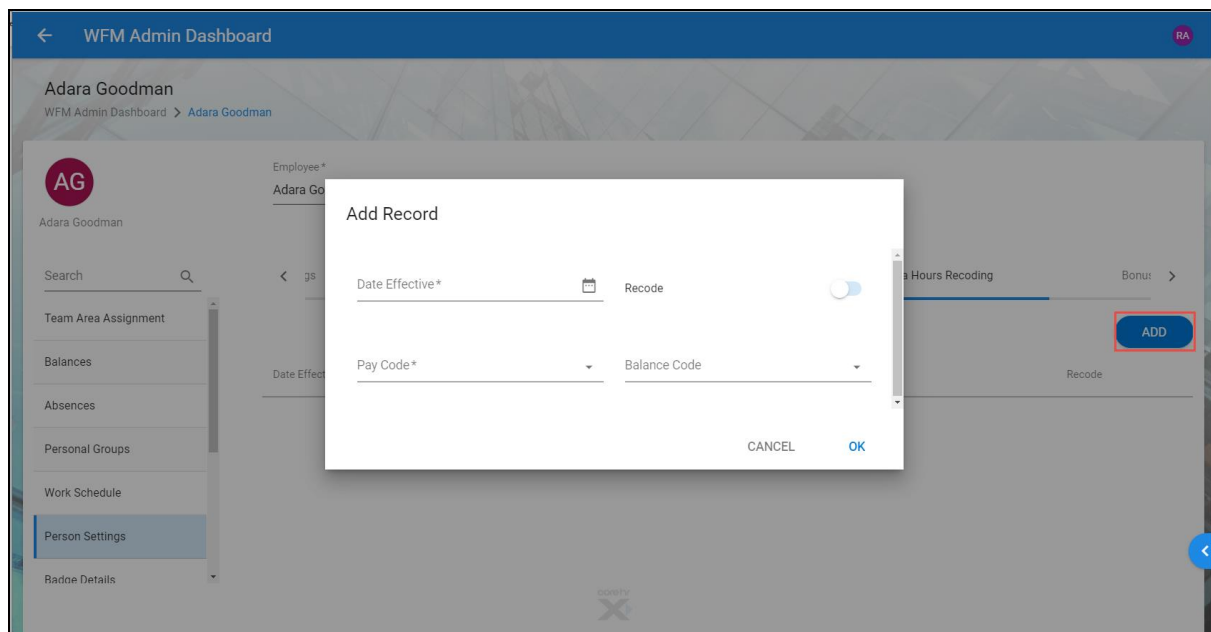

Setting	Webservice Option
Bradford Person Settings	Get settings person Bradford
Bradford Person Settings Entire Organisation	Get settings person Bradford Proxy (Entire Organization)
Calculate Settings	Update settings person Bradford calculate
Update Settings	Update settings person Bradford calculate Proxy (Entire Organization)

10.5. Extra Hours Recoding

The *Extra Hours Recoding* tab lets users assign details to the employee where Extra Hours Recoding is used.

To add a recoding:

1. Click **Add** in the top right hand of the tab.
2. Fill in the dates and click the **Recode** toggle.
3. Enter **Pay Code**.
4. Enter **Balance Code**.
5. Click **Ok**.

To set up *Extra Hours Recoding*, the following Webservice Menu Options are needed:

Setting	Webservice Option
Create Settings	Create settings person recoding
Create Settings (Entire Organisation)	Create settings person recoding Proxy (Entire Organization)
Delete Settings	Delete settings person recoding
Get Settings person recoding	Get settings person recoding
Get Settings person recoding Entire Organisation	Get settings person recoding Proxy (Entire Organization)
Update Settings	Update settings person recoding
Get Settings personal General	Get settings person general
Get Settings person general Entire Organisation	Get settings person general Proxy (Entire Organization)
Update Settings Person General	Update settings person general
Update Settings person general Entire Organisation	Update settings person general Proxy (Entire Organization)

10.6. Bonus Override

This tab, available on the *Person Settings* screen allows users the ability to assign an employee a bonus override.

The screenshot shows the WFM Admin Dashboard for Adara Goodman. The left sidebar contains a menu with options: Team Area Assignment, Balances, Absences, Personal Groups, Work Schedule, Person Settings (highlighted), and Radine Details. The main content area is titled 'Bonus Override' and features a search bar, a table with columns 'Bonus Code' and 'Description', and buttons for 'ADD', 'DELETE', and 'SAVE'. The 'ADD' button is highlighted with a red box. The top navigation bar includes a back arrow, 'WFM Admin Dashboard', and a user profile icon.

The following additional web services are also required:

Setting	Webservice Option
Person Bonus Override	Get settings person bonus override Proxy (Entire Organization)
Person Bonus Override (Entire Organisation)	Create settings person bonus override Proxy (Entire Organization)
Delete Settings Bonus Override (Entire Organisation)	Delete settings person bonus override Proxy (Entire Organization)
Create Settings Bonus Override	Create settings person bonus override

Delete Settings person bonus override	Delete settings person bonus override
Get Settings Person Bonus Override	Get settings person bonus override

11. Work Group Override

The *Workgroup Override* tab, also available from the *Person Settings* screen, allows the user to override certain work group settings at an employee level. The screen displays the current work group setting and displays if there is any value held against the employee overriding the work group setting.

Users can search the work group setting to restrict the list of values returned on screen.

Each row will have the option to:

- **Edit Override** - Change the setting held against the employee
- **Delete Override** - Delete the existing override held against the employee and revert back to the work group setting.
- **The Shift Type Option:** is the one exception where the options edit and delete are not available to the user.

The option available from the shift type row is *Change Work Schedule* which calls the *Change Work Schedule* screen in a new pop up screen

Work Group Setting	Company Value	Work Group Value	Person Override Value
Holiday Scheme		Not Public & Company Holidays	
Shift Type		Rest Shift	Multi Pattern
Pay Frequency		Monthly	
Non Generate Timesheets		Y	
User Defined Calendar Group		No	
Team Scheduler Timesheet Template			
Calculate Default Hours		No	
Non Payroll Code Group			
Basic Overflow Pattern			
Basic Underflow Pattern			
Day Order Basic Rule	Default to Company		Default to Company
Non Generate Occupational Absence		N	
Absence Category Code			
Use Personal Alternates	Y		

11.1. Menu Options

The following menu options are required for the Work Group Override screen:

Screen Menu Options

Screen	Menu Option
Work Group Override (Admin)	WFM Admin > Person Maintenance > Work Group Override
Work Group Override (Manager)	WFM Manager > Person Maintenance > Work Group
Balance Outages	CorePortal > Balance Outages

Web Service Menu Options:

Setting	Webservice Menu Option
Person General	Get Settings Person General
Person General (Entire Organisation)	Get settings person general Proxy (Entire Organisation)
Update Settings Person General	Update settings person general.
Update settings Personal General	Update setting personal general Proxy (Entire Organisation

12. Personal Groups

On the *Personal Groups* screen, a manager or an administrator can view the specific groupings which an employee can be assigned to.

These include:

- Pay Code Groupings
- Work Pattern Groupings
- Cost Centre Groupings

The *Personal Groups* screen is controlled by the following menu options:

Screen	Menu Option
Personal Maintenance	WFM Admin > Person Maintenance > Personal Groups
Personal Maintenance (Manager)	WFM Manager > Person Maintenance > Personal Groups

The screen requires access to the following Web Services:

Setting	Webservice Option
Refdata	Refdata > Get bytype
Get detail Proxy	Profile > Get detail Proxy (Entire Organization)
Update detail Proxy	Profile > Update detail Proxy (Pers Post Access)

12.1. How to add a Paycode Access Group

To learn how to add a Paycode Group see the V28 Pay Code Access User Guide.

13. Team Area Assignment

The *Team Area Assignment* screen is now accessible as an administrator from the Workforce Management Admin Dashboard.

It allows users to:

- See what an employee's Home Team Area is.
- Amend or add the employee to a new Team Area.

The screenshot shows the 'Team Area Assignment' screen for 'Adara Goodman'. The left sidebar contains a search bar and a list of menu items: 'Team Area Assignment' (highlighted), 'Balances', 'Absences', and 'Personal Groups'. The main content area has a header with 'Employee*' and 'Adara Goodman'. Below this is a table with columns 'Team Area', 'Start Date', and 'End Date'. A table entry shows 'London Central Men' with a start date of '25-Nov-2019'. There are 'ADD' and 'SAVE' buttons.

Team Area assignment is controlled by the following menu options:

Setting	Menu Option
Team Area Assignment Update	MAIN_MENU.TEAM_AREA_UPDATE – 1994116

Note:

This menu option is the same menu option that controls if the Team Area is displayed on the Person Maintenance landing screen.

To provide users with the ability to add/update employees team area they will need to be assigned the following menu option

Setting	Menu Option
Add/Update Employees Team Area	MAIN_MENU.BADGE_DETAILS_UPDATE - 833571

 Note:

Only employees with an active Team Area will be displayed when running Person Maintenance by Team Area access. If the team area is ended with a historical date they will no longer be visible on Person Maintenance.

13.1. Team Area Restriction on Date Entry

A new restriction has been added only allowing users enter in a Team Area End date which is within the last month. This removes the refresh issues previously encountered when removing employees from their Team Area.

14. Leave Request History

The *Leave Request History* screen allows Managers or Administrators on a site to view Leave Requests for an employee as well as their current status.

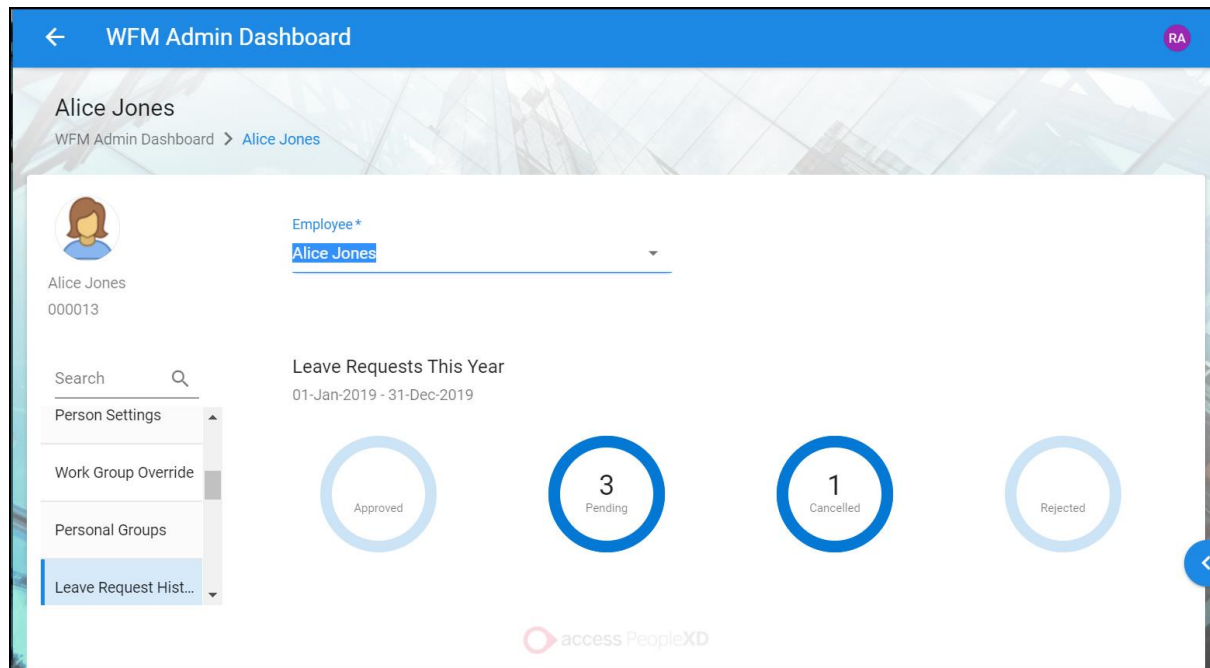

The leave requests for the current Annual Leave Calendar period are shown.

The screenshot displays the 'WFM Admin Dashboard' for 'Alice Jones'. The left sidebar contains navigation links: Work Schedule, Person Settings, Badge Details, Roster Contract, Key Information, Leave Request History (selected), and Uncovered Shifts. The main content area shows the 'Employee *' dropdown set to 'Alice Jones'. Below this, a table lists leave requests. A filter dropdown is set to 'All Time'. A table with 3 columns (Type, Dates, Status) shows three 'Annual Leave' requests, all with a status of 'Submitted'. A blue 'EXPANDED VIEW' button is in the top right of the table area.

Type	Dates	Status
4 MAR Annual Leave 5 Day(s)	Start Mon 04th Mar 2019 End Fri 08th Mar 2019 Submitted Mon 28th Jan 2019	Submitted
1 FEB Annual Leave 0 hours 00 minutes	Start Fri 01st Feb 2019 End Fri 01st Feb 2019 Submitted Mon 28th Jan 2019	Submitted
24 JAN Annual Leave 0 hours 00 minutes	Start Thu 24th Jan 2019 End Thu 24th Jan 2019 Submitted Mon 28th Jan 2019	Submitted

It is also possible to filter for the following time periods

- The last month
- The last three months
- The last twelve months
- All time

The screen also allows for an expanded view. This shows us further information about the employee's leave requests allowing to filter by Time Pay Code or Status.

It is possible to see the following leave types:

- Requested
- Approved
- Pending
- Rejected.

14.1. User Security

The following menu options are required for the Leave Request History Screen:

Screen	Menu Option
Leave Request History Admin	WFM Admin > Person Maintenance > Leave Request History

Leave Request History Manager

WFM Manager > Person Maintenance > Leave
Request History

The following Web Service Menu Options are required:

Screen	Webservice Option
Get Requests Summary	Leave > Get Requests summary
Get Requests Summary Proxy (Entire Organisation)	Leave > Get Requests summary Proxy (Entire Organisation)

15. Badge Details

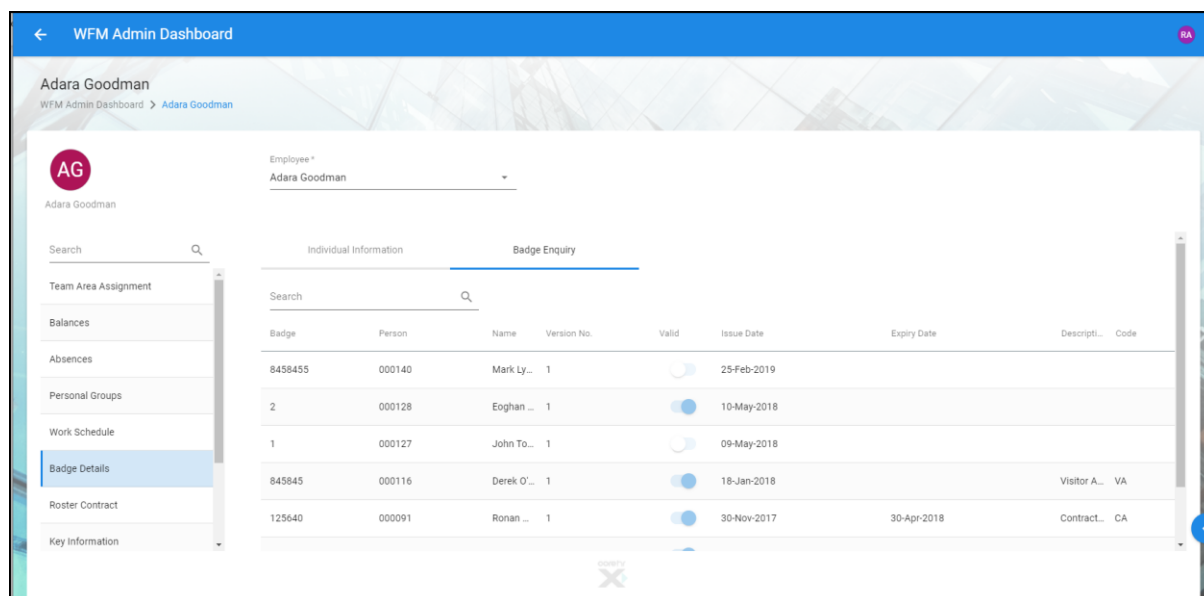

The *Badge Details Screen* allows Administrators to view or amend badge details for employees.

There are two separate tabs on the screen:

- **Individual Information:** This tab shows you the details of the employee being viewed. It is also where you can add or edit a badge for the employee.
- **Badge Enquiry:** This tab allows to search for all of the badges which are currently set up for employees. Admins can also check that a badge number has not been assigned to another employee before it is assigned to a specific employee.

The screenshot shows the WFM Admin Dashboard for Adara Goodman. The left sidebar contains a search bar and a list of menu items: Personal Groups, Work Schedule, Roster Contract, Badge Details (highlighted), Key Information, Leave Request History, Shift Swap History, and Uncovered Shifts. The main content area has two tabs: 'Individual Information' (active) and 'Badge Enquiry'. The 'Individual Information' tab shows a search bar and a table of badges. The 'Badge Enquiry' tab is also visible.

Badge	Person	Na...	Version No.	Valid	Issue Date	Expiry Date	De...	Code
210	000162	te ...	1	☒	20-Oct-2020	20-Oct-2021	Co...	CA

User security:

Task	Menu Option
Menu Option for Screen Access	WFM Admin > Person Maintenance > Badge Details
Badge Enquiry	WFM Admin > Person Maintenance > Badge Enquiry
Add/Edit/Delete	WFM Admin > Person Maintenance > Add/Update Badges
Profile	Profile > Get access portal menu
Manager Update Badges	WFM Manager > Person Maintenance > Add/Update Badges

16. Next of Kin

The *Next of Kin* screen allows users to view/amend their details.

The screenshot shows the WFM Admin Dashboard for Adara Goodman. The left sidebar contains a search bar and a list of menu items: Personal Groups, Leave Request History, Badge Details, Next Of Kin (highlighted), Roster Contract, and Shift Swap History. The main content area displays the 'Next of Kin' form for Adara Goodman. The form includes fields for Employee* (Adara Goodman), Forename, Surname, Relationship, Phone, and Address (Address Line 1, Address Line 2, Address Line 3). The 'Address' section is highlighted in blue. The bottom of the screen shows the 'clearly' logo.

This includes:

- Forename
- Surname
- Relationship
- Phone
- Address

There are new menu options to control access to the screens:

Screen	Menu Option
Next of Kin (Admin)	WFM Admin > Person Maintenance > Next Of Kin
Next of Kin (Manager)	WFM Manager > Person Maintenance > Next Of Kin
Get nextofkin Profile	Profile > Get nextofkin

Update nextofkin Profile

Profile > Update nextofkin

17. Roster Contract

The *Roster Contract Screen* allows the Admin/Manager to view an employee's roster contract.

This includes details such as:

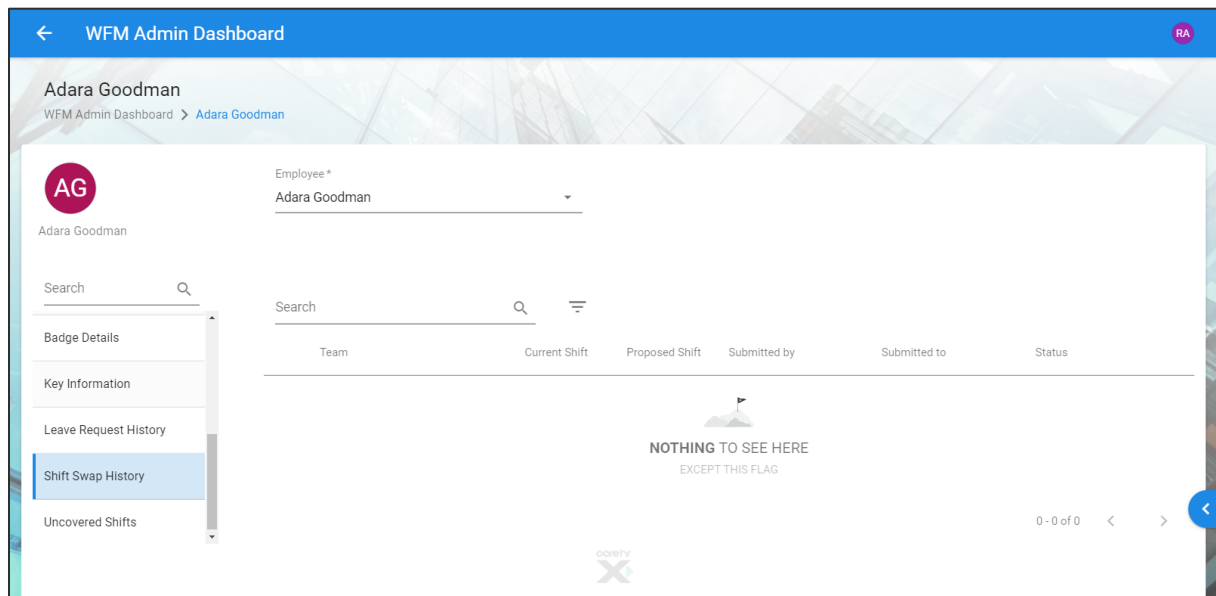

- Available times to work daily
- Maximum work hours per day
- Minimum work hours per day
- Maximum Shifts per week
- Minimum hours per week
- Maximum hours per week

This is used to check employee's availability as part of the Auto Roster and notifies users if the employees schedule has any gaps. Users can view/amend existing contracts or add a new contract to an employee.

The screenshot displays the 'WFM Admin Dashboard' interface. At the top, a blue header bar contains a back arrow, the text 'WFM Admin Dashboard', and a user profile icon labeled 'RA'. Below the header, the user 'Adara Goodman' is selected, with a breadcrumb trail 'WFM Admin Dashboard > Adara Goodman'. The main content area features a sidebar on the left with a search bar and a list of menu items: 'Personal Groups', 'Work Schedule', 'Badge Details', 'Roster Contract' (highlighted in blue), and 'Key Information'. The main panel shows the 'Roster Contract' details for 'Adara Goodman'. It includes a dropdown menu for 'Employee*' with 'Adara Goodman' selected. Below this, there are fields for 'Start Date' and 'End Date', with '06-Jul-2020' entered in the 'Start Date' field. A blue button labeled 'ADD NEW CONTRACT' is positioned on the right side of the main panel. At the bottom right, there is a green 'SAVE' button. The bottom of the screen features a 'core' logo.

18. Shift Swap History

The *Shift Swap History Screen* gives an overview of employee's shift swaps.

- **Swaps submitted** – All swaps that an employee submitted in the current system calendar year.
- **Swap Accepted** – All swaps that the employee Accepted from other employees in the current calendar year.
- **Swaps Rejected** – All swaps that the employee Rejected from other employees in the current calendar year.

Note:

The current calendar year relates to the system calendar dates associated with the employees' company. The dates the summary relate to will be displayed under the label.

Users have the ability to:

- Search the screen
- Filter the screen by a selected date.
- Receive specific information on the swap i.e. who else is involved

- Receive specific details of the shift for both employees.

User Security Menu Options :

Shift Swap History Admin	WFM Admin > Person Maintenance > Shift Swap History
Shift Swap History Manager	WFM Manager > Person Maintenance > Shift Swap History

Web Services :

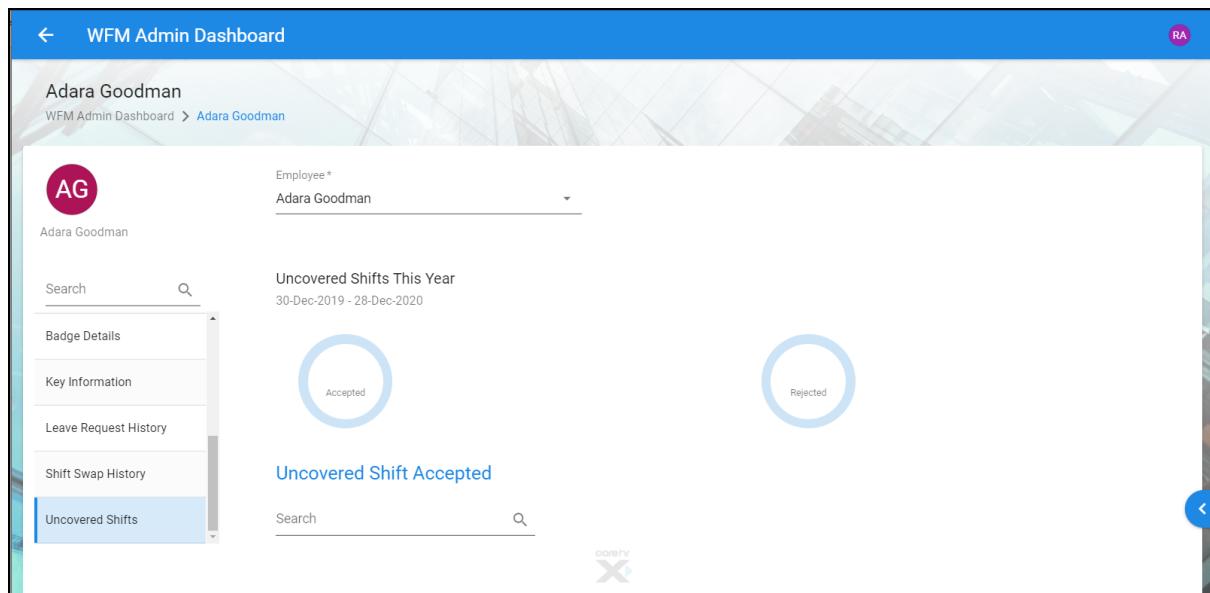

Get swaps history	Shifts > Get swaps history
Get swaps history Proxy (Entire Organization)	Shifts > Get swaps history Proxy (Entire Organization)
Get swaps summary	Shifts > Get swaps summary
Get swaps summary Proxy (Entire Organization)	Shifts > Get swaps summary Proxy (Entire Organization)
Shifts	Shifts > Get swaps coworkers

18.1. Shift Swap Detail

With Shift Swap Detail, users can drill into the shift swap detail to see the information relating to the swap, included who else is involved in the swap and the shift details for both employees.

19. Uncovered Shifts

The *Uncovered Shifts Screen* shows the admin/manager the shifts which have been accepted by the employee as well the number of uncovered shifts which have been rejected.

Access to Uncovered Shifts is controlled by the following User Security Menu Option:

Screen	Security Menu Option
Uncovered Shifts	WFM Admin > Person Maintenance > Uncovered Shifts

The screen provides the following:

- A summary of Shifts Accepted and Shifts Rejected in the current calendar year.
- Ability to search the Uncovered Shifts Accepted screen by any of the fields e.g.
 - Date,
 - Day,
 - Time,
 - Duration,
 - Pattern.

Note:

The screen will be appointment driven if running in a multi appointment site.

20. Qualifications

The Qualifications screen provides administrators or managers with the ability to view qualifications that have been attached to an employee and if access is assigned they can assign a new qualification directly from this screen.

New menu options to display in Person Maintenance

Screen	Menu Option
Qualifications (Admin)	WFM Admin > Person Maintenance > Qualifications
Qualifications (Manager)	Qualifications - WFM Manager > Person Maintenance > Qualifications

Current screen menu options to control read/write access:

Task	Menu Option
Administrator Education View	CorePortal - Administrator Education View
Administrator Education Update	CorePortal - Administrator Education Update
Employee Education View	CorePortal - Employee Education View
Employee Education Update	CorePortal - Employee Education Update
Manager Education View	CorePortal - Manager Education View
Manager Education Update	CorePortal - Manager Education Update

21. Attributes

The Person Attribute Screen allows administrators / managers to assign a default Attribute to an employee which can then be displayed on an employees Roster.

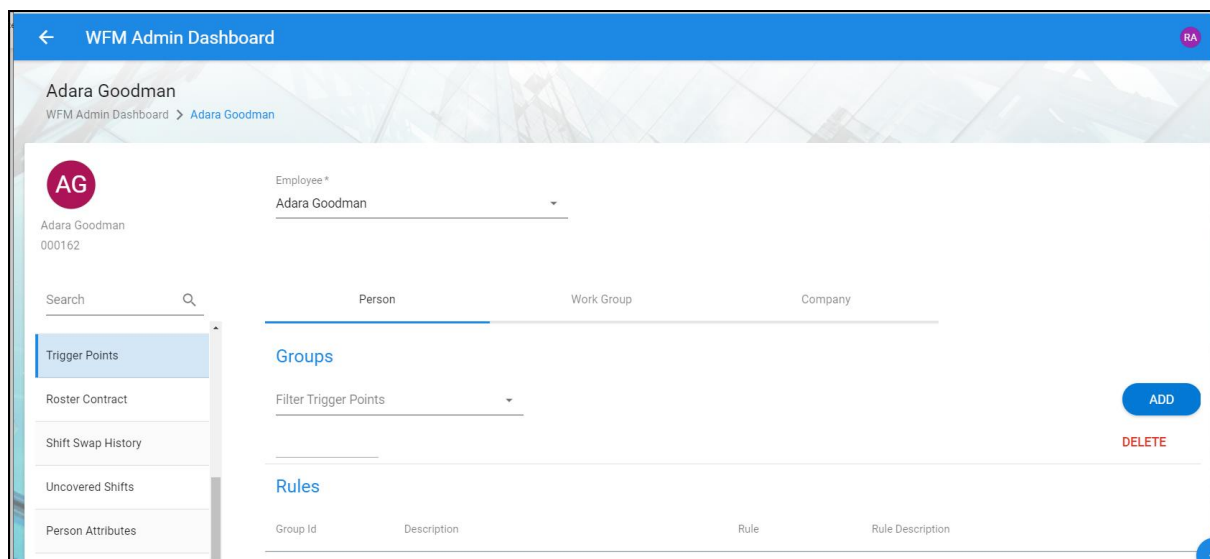

Person Attributes is controlled by the following Menu Options :

	Menu Option
Person Attributes Admin	WFM Admin > Person Maintenance > Person Attributes
Person Attributes Manager	WFM Manager > Person Maintenance > Person Attributes

The screenshot displays the 'WFM Admin Dashboard' interface. At the top, a blue header bar contains a back arrow, the text 'WFM Admin Dashboard', and a user profile icon labeled 'RA'. Below the header, the user's name 'Adara Goodman' and a breadcrumb trail 'WFM Admin Dashboard > Adara Goodman' are shown. The main content area features a sidebar on the left with a search bar and a list of menu items: 'Contact Information', 'Next Of Kin', 'Roster Contract', 'Shift Swap History', 'Uncovered Shifts', and 'Person Attributes' (which is highlighted). The main panel shows the 'Person Attributes' screen for 'Adara Goodman'. It includes a dropdown menu for 'Employee*' with 'Adara Goodman' selected. Below this is a table with columns 'Attribute', 'Start Date', and 'End Date'. The table contains one entry: 'Manager' with a 'Start Date' of '17-Nov-2020'. To the right of the table are buttons for 'ADD' (blue), 'DELETE' (red), and 'SAVE' (green). A 'COSTLY' watermark is visible at the bottom center of the main panel.

22. Trigger Points

The *Trigger Points* screen breaks out into three tabs to allow the user to see what settings are held at **Employee**, **Work Group** and **Company** level.

The Person Trigger Points override the work group and company values while the work group overrides the company values.

Users can add, update or delete the trigger point groups held against the employee. The rules assigned to the trigger points display in the **Rules** section so users can see what triggers are checked against an employee.

Menu Options:

Screen	Menu Option
Trigger Points Admin	WFM Admin > Person Maintenance > Trigger Points

Trigger Point Manager	WFM Manager > Person Maintenance > Trigger Points

Webservices:

24. Appendix – T&A ONLY Site Users

Note:

For WFM only sites, access to Personal Maintenance should be configured through Team Area Access or System Users.

24.1. Add New Employee

When running in a WFM only site, users can create an employee directly from Person Maintenance.

This is controlled by the parameters (ct_global_param.corehr and ct_global_param.post_management both set to 'N')

When creating a new employee, the following screen are mandatory

- Personnel No
- Surname
- Forename
- Work Group
- Dept
- Person Type
- Start Date
- The Add new screen will be separated into two sections
- Employee Information
- Contact Details

Note:

When adding an employee in a WFM only site the date the employee is created will be assigned to the employees shift type and badge assignment (if this is automated).

24.2. Edit Employee

This provides a user with the ability to edit the employee's details on the Key Information screen when in a WFM only site.

When in Edit mode, the user is able to amend the following values

- Forename
- Surname
- Known as
- Date started
- Date left
- FTE on screen
- Standard hours
- Contract Hours
- Work Group
- Department
- Job Title
- Location
- Cost Centre

24.3. Delete Employee

When running in a WFM only, site users are able to delete an employee that created in error if there are no underlying records recorded against the employee.

For example, employees cannot be deleted if there are hours generated, leave requests or shifts assigned for the employee.

The option to delete is available on the employee row under the ellipsis. The **Edit** button is also available in the ellipsis when in a WFM only site.

24.4. Contact Information

Contact Information is available to view via the Person Maintenance Screen but can be changed when running in a T&A only site.

The following options are required to view the Contact Information Screen:

Task	Menu Option
Contact Information Admin	WFM Admin > Person Maintenance > Contact Information
Contact Information Manager	WFM Manager > Person Maintenance > Contact Information
Create Address	Profile > Create address
Create Address Proxy	Profile > Create address Proxy (Entire Organization)
Get Address	Profile > Get address
Get Address Proxy	Profile > Get address Proxy (Entire Organization)
Update Address	Profile > Update address
Update Address Proxy	Profile > Update address Proxy (Entire Organization)
Get Contacts	Profile > Get contacts

Get Contacts Proxy	Profile > Get contacts Proxy (Entire Organization)
Create Contacts	Profile > Create contacts
Create Contacts Proxy	Profile > Create contacts Proxy (Entire Organization)

24.5. Next of Kin – WFM Site Only

In a T&A only site, a user can view and update Next of Kin details.

This is controlled by the following User Security Menu Options:

Task	Menu Option
Next of Kin Admin	WFM Admin > Person Maintenance > Next Of Kin
Next of Kin Manager	WFM Manager > Person Maintenance > Next Of Kin
Get Next of Kin	Profile > Get nextofkin
Get Next of Kin Proxy	Profile > Get nextofkin Proxy (Entire Organization)
Update Next of Kin	Profile > Update nextofkin

24.6. User Security T&A Site Only

The following Menu options are required in a T&A only site

Task	Menu Option
Create Roster	People > Create roster
Delete roster	People > Delete roster
Get Roster	People > Get roster
Update Roster	People > Update roster
Create Address	Profile > Create address
Create Address Proxy	Profile > Create address Proxy (Entire Organization)

Update Address Proxy	Profile > Update address Proxy (Entire Organization)
Get Contacts	Profile > Get contacts
Get Contacts Proxy	Profile > Get contacts Proxy (Entire Organization)
Create Contacts	Profile > Create contacts
Create Contacts Proxy	Profile > Create contacts Proxy (Entire Organization)

25. General Configuration

In order to configure Person Maintenance, you will need to set up the following options via Webservices:

Note:

If running in an appointment driven site only active appointment will be displayed. Ended appointment will need to be viewed/maintained via People Management.

Option	Webservice code
Create Settings Person recoding	(50490ed8f7542c2b2dcc0e057a978d74

25.1.1. Medical Salary Rule

The *Medical Salary Rule* screen holds the details for the medical salary rule - NCHD Parameters.

The screen will detail the following fields:

The screenshot displays the 'WFM Admin Dashboard' for 'Adara Goodman'. The dashboard includes a sidebar with navigation options: Trigger Points, Roster Contract, Shift Swap History, Uncovered Shifts, Person Attributes, and Qualifications. The main content area is titled 'NCHD Parameters' and features a table with columns: Date Effective, Onsite @ 1.5, Onsite @ 2, Oncall Offsite, Absent Oncall, Sunday Premium, Public Holiday On..., and Public Holiday On... The table is currently empty, with an 'ADD' button in the top right corner. A 'DELETE' button is visible at the bottom right of the table area. The 'SAVE' button is located at the bottom right of the screen. The user's profile 'Adara Goodman' with ID '000162' is shown in the top left corner.

- Date Effective

Delete Settings Person Proxy	Roster > Delete settings person nchdparameters Proxy (Entire Organization)

26. Person Maintenance Checklist

When you are setting up the *Person Maintenance* screens, consult the checklist below to be sure you have followed all the steps.

- Ensure that you have the correct access set up. For further information on access, refer to [Employee/ Manager Access](#)
- The default menu option should be set to Employee.
- Amend the menu options as required for what you specifically wish to view and have access to.
- You may wish to change the default order. To do this, see further information on [Dashboard Order](#)

27. Default Menu Options

To configure all of the menu options together, there are default menus which will eliminate the need to turn on all the menu options one at a time. If however, you wish to specifically customise certain screens, you can use the individual menu option in the following sections for the screens to appear on Portal.

Menu	Menu Option
Administrator Menu	WFM_PERSON_MAINTENANCE_ADMIN
Manager Menu	WFM_PERSON_MAINTENANCE_MGR

27.1.1. Add person maintenance admin menu options

Screen	Menu Option

28. Additional Information

**Note:**

Personal Maintenance in Query mode is no longer available via the System User Access. Query Mode is now controlled via User Security Menu Options.

28.1. Quick Jumps

The Person Maintenance screens on Portal now allow users to Quick Jump to specific screens.

The following three screens are controlled by the default menu options:

- *Absence Entry*
- *Balances*
- *Work Schedule*

The menu options in the following table control the Quick Jumps for the Timesheet screen.

Screen	Menu Option
Timesheet Access (Admin)	PERSON_MAINT_MGR_MENU.TIME_SHEET_MGR - 1028352752
Timesheet Access (Manager)	PERSON_MAINT_ADM_MENU.TIME_SHEET_ADMIN -73022891 -
