

New Recruitment Protocol Decision Tree

PVC Panel

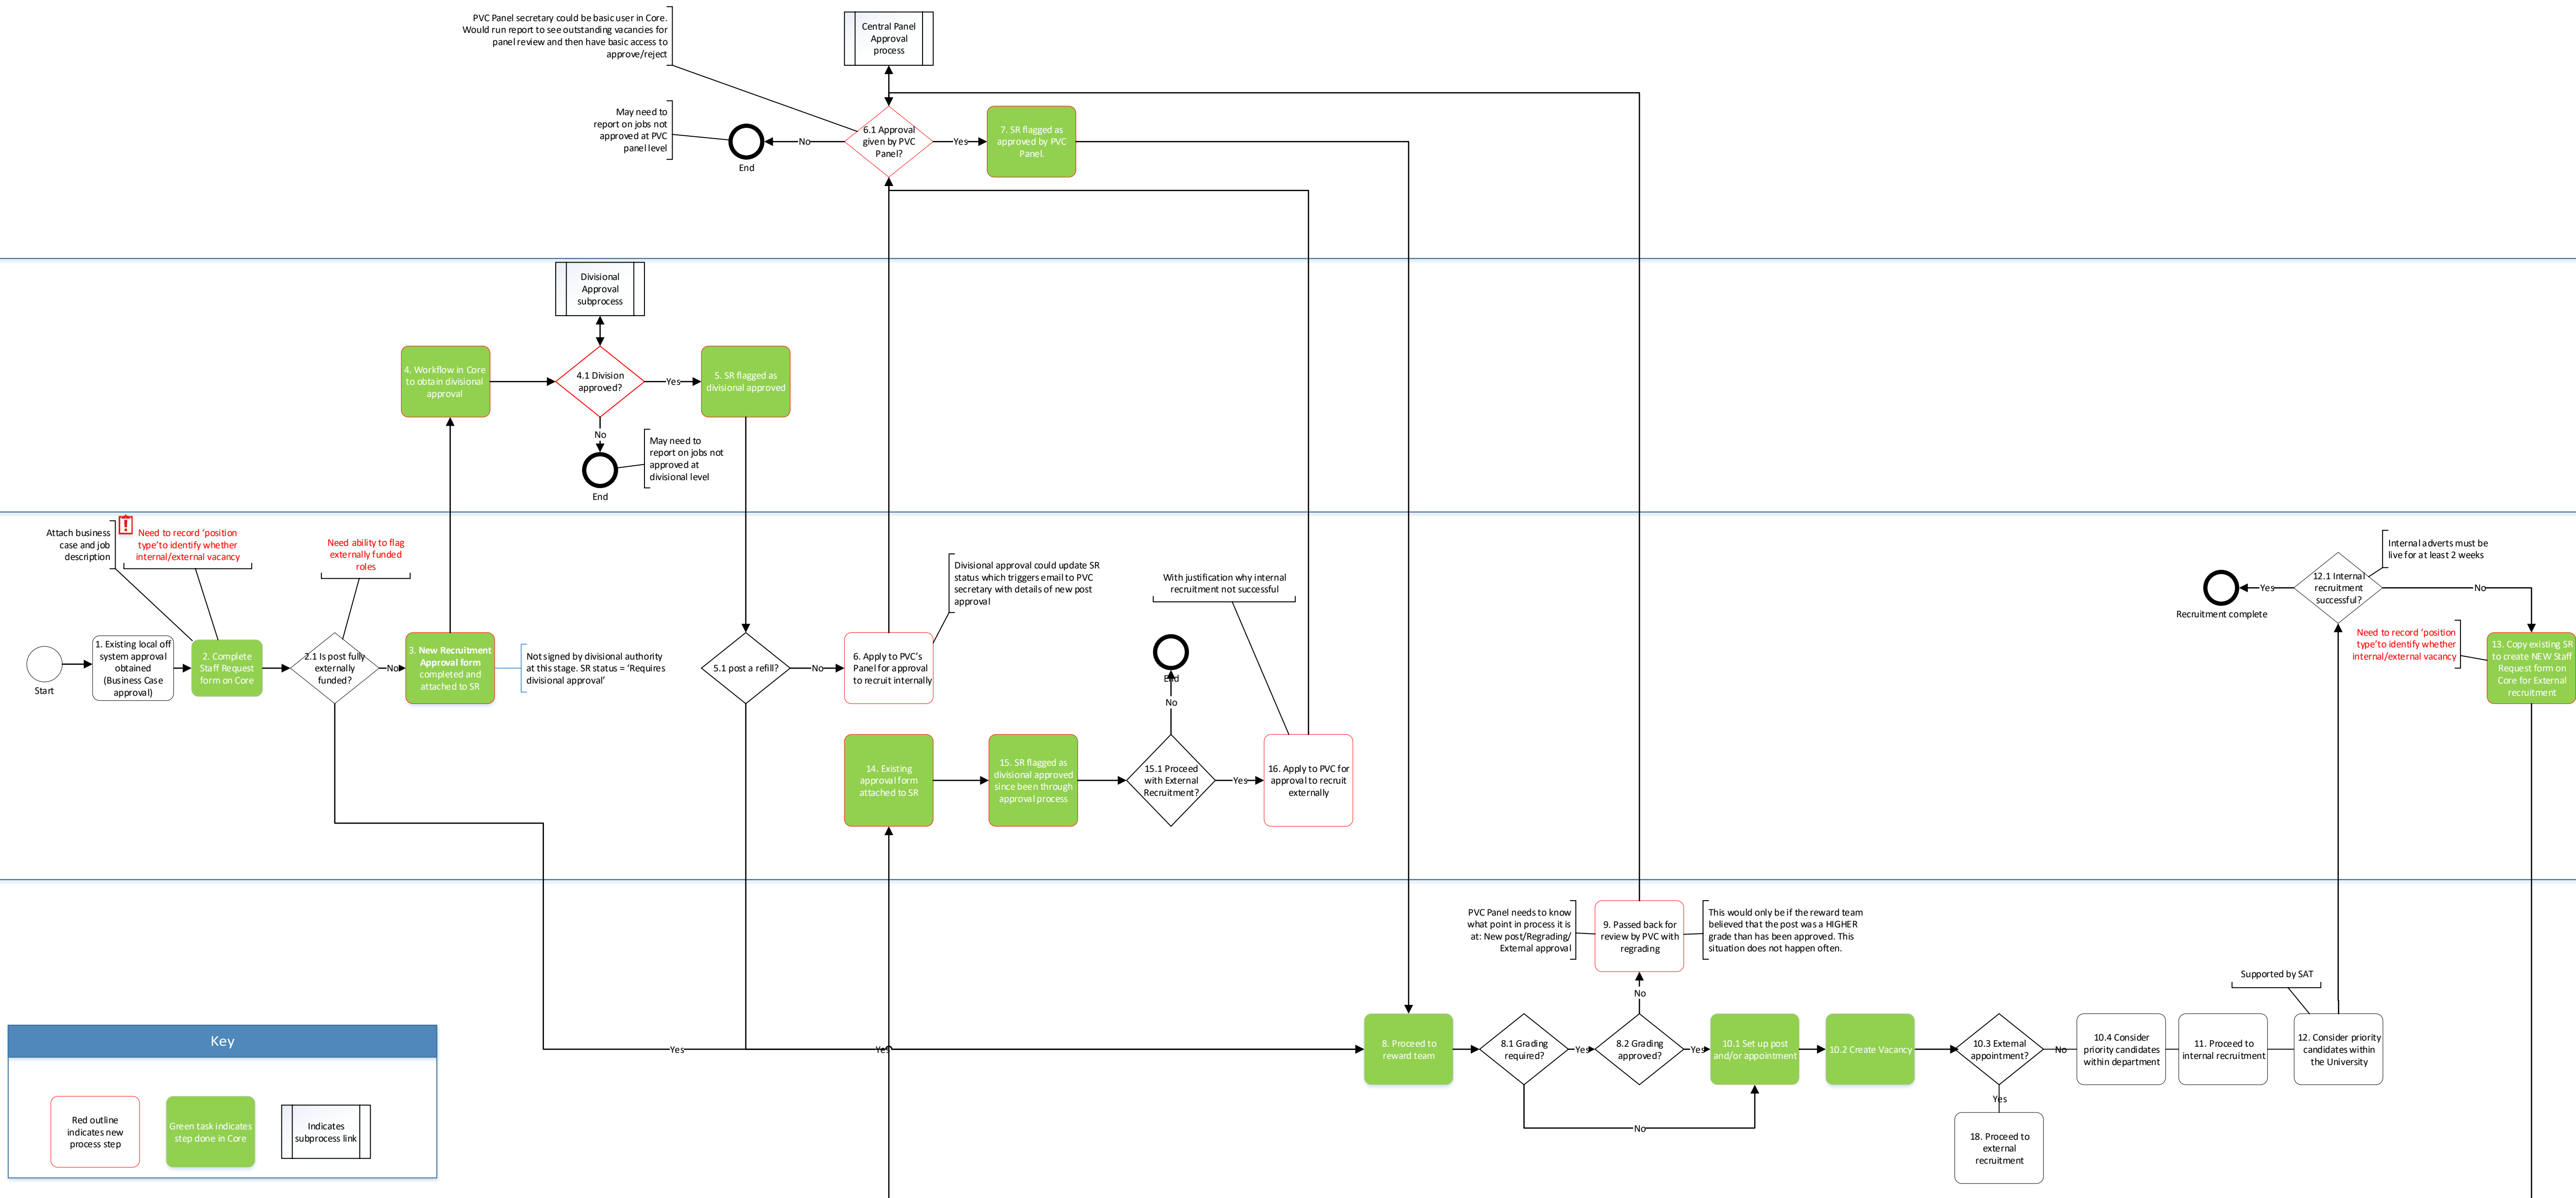

Division

Department

Rewards Team

Notes

Information

1. This refers to business case approval and initial departmental approval that is done off-system
- i

2. Need a way to record whether the vacancy is internal or external in Core. Important for rewards team and for the PVC panel.
- i

2.1. Need way of flagging externally funded posts
3. If divisional approval is done off system, could the approval in Core be done in the Dept. to keep Divisional users out of the system workflow?
4. Core role DAPP (Staff request approver) reallocated on divisional level instead of dept
- 4.2 Refills do not need PVC approval – CHECK!
3. MPLS Dept email form to division. Division approve. Email protocol number to dept Dept then approve own SR
6. Helen investigating proof of concept in Core for second level of approval
- i

8. Grading Discoverer report would require changing to look at RRP approver (diff date?) Email from Simon ensure that PERCTRL2_Staff Request List and PERCTRL2_Staff Request SLA are included in any analysis and testing
9. Any grading queries would need to be completed off system as we don't have the functionality in the workflow to go back to that approval gateway
- 10.4. Departments are expected to ensure that all staff at risk within the department are made aware of any internal posts before they are advertised and, where they express an interest, that those members of staff are assessed for their suitability, before the advertisement is posted.
11. The expectation is that all professional, admin and support posts are advertised internally, to maximise the opportunities for redeployment for staff at risk of redundancy, including staff coming to the end of a FTC. Only if the internal advertisement (having been 'live' for at least 2 weeks) does not result in the identification of a suitable candidate, and with authority from the relevant approving body, may these posts be advertised externally to the University.
12. Priority candidates who meet the essential criteria or who could do so with reasonable retraining or a short period of on-the-job experience should be interviewed before other candidates and offered the role. No further interviews should be conducted unless there is more than one priority candidate.
13. If internal recruitment is unsuccessful and post is to be recruited for externally, then a new staff request must be made in Core.
14. Need to check whether attachments are copied when a SR is copied in Core? If not then the approval form will need to be reattached to the SR
- 15.1 There may be circumstances in when Dept decide not to proceed with external recruitment, e.g. budget concerns

- All posts
- Strong business case must exist see point 10 of dept guidance
 - Consider internal staff redeployment see point 12.1 dept guidance

- Divisional Approval
- Posts in academic divisions: Head of Division or Divisional Registrar;
 - Posts in Continuing Education: Continuing Education Board
 - Posts in UAS: Registrar;
 - Posts in GLAM: Pro-Vice-Chancellor (GLAM)

- Registrar's Recruitment Panel (RRP)
- Chair: Registrar
 - Secretary: Shaila Obhizole
 - Members: a subset of six members of the Registrar's Senior Leadership Team: two divisional registrars and four others, with three attending any one meeting, one of those three to be a divisional registrar.

- Quarterly reports for PRAC and Personnel Committee
- Vacancy numbers across divisions
 - Staff numbers and costs across divisions
 - Number of externally advertised roles
 - Number of non-employed casual workers and contractors staff who received pay in the period

Red outline indicates new process step
