Integrate with Volcanic and Broadbean

By Debs • 3 articles

Internal vacancy published on Volcanic for external candidates

We are trying to post a vacancy for internal candidates only but when we publish the advert it goes live onto Volcanic for external candidates to apply for. >

Error - 'Error with broadbean integration further details in Logs (filter logs by broadbean).' >

Unable to Export Vacancy to Broadbean.

Add volcanic custom mapping to my recruit toolbox

Add the Volcanic Custom Mapping option to My Recruit Toolbox to allow you to configure which fields are sent to Volcanic as custom fields when editing a vacancy in... >
