

PeopleXD Help Centre experience

How to access our articles for all PeopleXD modules.

Table of contents

We've upgraded the way you access support. Each PeopleXD module now has its own dedicated Help Centre, making it easier to find exactly what you need, faster.

This new structure gives you clearer navigation, more focused content, and a smoother experience, whether you're troubleshooting, learning something new, or exploring advanced features.

With this update, you can jump straight into the Help Centre for the specific module you're working in, without needing to sift through articles that aren't relevant. Each space is organised, streamlined, and regularly updated so you always have the latest information at your fingertips.
